REACH TRUCE IN GERMANY

RESERVATION
TO ARTICLE X.
WINS, 56 TO 26

All Is Clear Now for
the Final Vote.

BY ARTHUR SEARS HENNING.
Washington, D. C., March 15.—[Special]—Although the senate today adopted the new Lodge reservation to article X. of the league of nations covenant by a vote of 56 to 26, one more than a two-thirds majority, leaders on both sides tonight were predicting the defeat of the German peace treaty on the ratification roll call the latter part of this week.

Senator Hitchcock relies upon twenty-four Democratic senators to support the president's rejection of the reservations and, joining with fifteen or more Republican irreconcilables, accomplish the defeat of the treaty by at least two votes.

Senator Lodge said he greatly feared that no more hopeful view of the prospects could be taken than that expressed by Mr. Hitchcock.

Only Deserts Can Do It.

Hope of ratification is founded entirely on the possibility of several more Democrats deserting the administration, a contingency which Senator Hitchcock does not fear and upon which Senator Lodge does not rely.

The TRIBUNE's account this morning of the president's rejection of the revised version of the article X. reservation was confirmed when Senator Hitchcock admitted he had received a letter from Mr. Wilson with the text of the new clause annotated: "Not acceptable, W. W."

Despite the unyielding attitude of the White House, however, fourteen Democrats defied the president and voted for the reservation. No Republicans voted against it.

How Senators Cast Votes.

The roll call on the reservation follows:

FOR THE RESERVATION.

REPUBLICANS.
Harding, Norris, Jones (Wash.), Page, Kirtz, Sherman, Pease, Sherman, Smeot, Snoot, Spence, Sterling, Sturtevant, Tammel, Townsend, Wadsworth, Warren, McNary, Moses, Watson—42.

DEMOCRATS.
Myers, Nugent, Phelan, Pittman, Pomerene, (Mass.)—14.

AGAINST THE RESERVATION.

DEMOCRATS.
Buchanan, S. D. J., Kirtz, Kirby, McKellar, Overman, Owen, Randall, Robinson, Sheppard, Smith (Md.), Stanley, Tranmer, Underwood, Walsh (Mont.)—14.

HEART OF THE Reservation.

Here is the text of the new reservation:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country, by the employment of its military or naval forces, its resources, or any form of economic discrimination, or to interfere in any way in controversies, including controversies relating to territorial integrity and political independence, between nations, whether members of the League or not, under the provisions of article X., or to employ the military or naval forces of the United States under any article of the treaty for any purpose, unless in any particular case the Congress, which, under the constitution, has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall, in the exercise of full liberty of action, by act or joint resolution, so provide."

Senate Tank in Action.

A steam roller, well oiled and running smoothly, flattened out every effort to weaken or modify the new Lodge reservation. Among the various substitutes which were tossed into the heap of scrapped compromises those framed by ex-President Taft and the bipartisan conciliation conference.

The Taft resolution, offered by Senator Kirby, Arkansas, Democrat, went down to defeat, 30 to 46. The Republican voting solidly against it. The bipartisan compromise, also offered by Senator Kirby, was rejected.

CAN YOU BLAME HIM FOR WANTING RESERVATIONS?

London, March 15.—A revolt has broken out among several units of the Japanese troops in Siberia, according to a wireless dispatch sent out by the Soviet government at Moscow. The soldiers ripped off their shoulder straps and substituted red straps, the dispatch says.

Two Yanks Die in Fire.

Washington, D. C., March 15.—Two members of the American expeditionary forces at Vladivostok were burned to death in a fire which destroyed the American barracks at that place on March 6, and two others are missing.

The war department was advised in a cablegram received today from Maj. Gen. Graves.

A general strike of all railway employees and all classes of labor in the Chinese Eastern railway zone in Manchuria was reported in advices today to the state department. The strike resulted from a demand of the social revolutionists that Gen. Horvath relinquish authority over the roads, it was said. Traffic on the railroad had been stopped.

in all its seriousness also by the Ebert government. Therefore hope is entertained here that an agreement will be reached by the two contending governments and that the streets of Berlin will soon be cleared of wire entanglements, machine guns, and armed troops.

Berlin was without news today because the government manifestoes, as all the newspapers were suppressed. The government's declarations continued to call at the independence of the deposed government and promised numerous reforms, including early general elections. A rigid telegraphic censorship has been imposed.

At the chancellery this afternoon, where Dr. Kapp received the American and British newspaper correspondents, the presence was noted of two Prussian members of the deposed government.

Won't Stand for Heckling.
Ignatius Tribitich Lincoln, the chief censor, who early in the war was imprisoned in London tower as a spy, called a halt when the correspondents began to heckle Dr. Kapp. One of the correspondents sought out another official and put to him the direct question: "From whom did you get your mandate?"

To this he replied: "We represent those who have been working months for this achievement."

The official refused to define whom he meant by "we," saying that the responsible leaders would reveal themselves at the proper time. He stated that it was long ago decided to put up Dr. Kapp as chancellor. Discussing the strike, the official said the government was considering combative measures.

An analysis of the new government's position in the light of known developments indicates it is receiving little popular or political support, even in Berlin. No enthusiasm is publicly manifested.

INSISTS THAT KAPP QUIT

PARIS, March 16.—A dispatch to the Petit Parisien from Zurich, Switzerland, says the Ebert government in Germany, together with the president and vice president of the national assembly and the Wurtemburg ministers, met at Stuttgart Monday and decided to reject any attempt at negotiations on the part of the followers of Wolfgang Kapp. Premier Bauer is quoted as having said that the only condition the Ebert government would offer Kapp was that he resign and quit Berlin.

The Ebert government further declares, says the dispatch, that it has authorized nobody to negotiate with the Berlin government, being convinced that it will be able to restore order in a few days.

The Berlin dispatch saying that negotiations had been opened is denied in a categorical manner.

The Paris dispatch appears a note to the dispatch, pointing out that it does not know whether the meeting at Stuttgart was held before or after the negotiations which are reported to have ended in an agreement.

LINEUP OF RIVAL FORCES

PARIS, March 15.—Advices received early in the day from Berlin indicate the reactionary movement is confined to Berlin and that mobs are busy looting stores in some quarters of the city. A general strike, affecting transportation, electric power, and the water supply of Berlin, has been declared, and railway workers have said they have asked Chancellor Kapp to leave Berlin.

A general strike affecting all public services has also been called at Kiel, Bremen, Hamburg, and Regensburg, while public sentiment in favor of the Ebert government is declared to be increasing in Cologne, Essen, Dusseldorf, Bochum, Duisburg, Spaniard, and Frankfort. At Munich the Bavarian government has handed over control to a general who is in favor of the Ebert government. The German national assembly has been summoned to meet at Stuttgart tomorrow.

BRITISH BELIEVE GERMAN REBELS CAN'T CARRY ON

Grandson of Kaiser May Be Placed on Throne.

BY JOHN STEELE.
[Chicago Tribune Foreign News Service.]
[By Special Cable.]

LONDON, March 15.—The British foreign office, which has regular communication with Lord Kilmarnock, the British chargé in Berlin, does not regard the new German government as likely to be permanent.

The British authorities believe that the real instigators of this revolt did not come forward, and will not unless succeed. They regard it as only one of many attempts by figureheads acting for powerful persons in the background. It is hinted that one of these is Gen. Ludendorff, and that he plans to call the assembly on a restricted franchise and elect himself president as the first step, from that passing to a monarchy.

May Crown Kaiser's Grandson.

There is no likelihood that either Wilhelm or his son will be restored, but there is a possibility of a grandson being chosen, with a regency for five or six years, which would suit the requirements.

In case the new government lasts more than a week or two there is a possibility of civil war. The new government has the best troops, mostly of the student class, who have been demobilized and are intensely patriotic, while the old government seems to have the support of the working men, particularly in the south.

Downing street takes the view that no interference by the allies is possible.

4—Turkey. Nationalists are rapidly putting Turkey back on its feet as a military power. The recent Armenian massacres in Cilicia are a logical outcome of the new Turkish policy of favoring Moslems only.

5—So tense is the atmosphere around Constantinople that England and the other allies are sending more ships and troops there and may even seize the city.

6—The whole German junker's game, it is thought, is to divide and confuse the allies, sending them into a panic by creating a crisis now here, now there, and, by taking advantage of the muddle, put a powerful new Germany on its feet again.

"One Thing, They Must Pay."

It is one of our business who rules in Germany so long as Germany carries out her international obligations.

"The greatest danger that I see is that of the economic breakdown in Germany. This unrest stops the work of production, and Germany cannot afford to lose any production if she is to pay her debt. It would be a fatal policy for the allies to intervene and attempt to take over the government of Germany on its feet again.

"Neither party wants to quarrel with the allies at this stage. The policy of the new government seems to be to build up the strength of Germany and then act to secure better terms if possible.

"We are not afraid of the escape of the kaiser. Holland has given a pledge to guard him on which we rely, and more than that, we don't believe anybody in Berlin wants him. He is the most unpopular man in Germany even with the reactionaries.

Won't Recognize Rebels.

The foreign office has issued an official denial of any communication with the new government or any intention to recognize its existence.

Lord Kilmarnock, the British chargé, turned down the suggestion by the old government that he protest against the coup. His attitude is one of strict impartiality.

Allies to Watch Events.

LONDON, March 15.—Premier Lloyd George, the general secretary of the foreign office, called on Dr. Von Mayer, German chargé, today, and informed him that the French government had decided to appoint a chargé at Stuttgart, the provisional seat of the Ebert government in Germany. M. Briuyer, who has been named as the chargé, will exercise their economic power and drive out the military forces and restore the government just overthrown.

LLOYD GEORGE PLANS COALITION IN NEW PARTY

[Chicago Tribune Foreign News Service.]
[By Special Cable.]

LONDON, March 15.—The Observer, whose editor is J. L. Garvin, one of the men in closest touch with the prime minister, announces Mr. Lloyd George has decided on a definite fusion and coalition of Liberals and Tories in a new party at a meeting to be held next Thursday.

This means Mr. Lloyd George burns his boats and becomes conservative, as the free Liberals under former Premier Asquith's leadership will not follow him in his new move.

The new parties will be the progressive conservatives led by the prime minister and labor, with a small Liberal party as the third.

France to Send Charge to Ebert's New Capital

PARIS, March 15.—Maurice Paleologue, the general secretary of the foreign office, called on Dr. Von Mayer, German chargé, today, and informed him that the French government had decided to appoint a chargé at Stuttgart, the provisional seat of the Ebert government in Germany. M. Briuyer, who has been named as the chargé, will exercise their economic power and drive out the military forces and restore the government just overthrown.

FOREIGN NEWS —IN BRIEF—

BERLIN—Revolt seems to have run course. Old and new governments reach a compromise.

BERLIN—Local fighting occurs in many German cities; some attempts made to proclaim soviet control. Many killed and wounded in flights.

ALEPPO—American medical missions word out of the Marash region that the Moslems are boycotting Americans.

PARIS.—Premier Millerand discusses economic after effects of war, and says France needs only time to pay every debt.

WARSAW—Several thousand Americans waiting in Poland for repatriation. Measure before congress will enable them to come home. All members of the Polish army.

BUDAPEST—Americans cheer Admiral Horthy when he takes the state oath as dictator of Hungary. The nation is expected to regain a steady footing under his care.

BERLIN—Entente control points out that Kapp government is violating treaty of Versailles by excessive mobilization of new armies.

LONDON—British opinion holds new German rebels cannot hold power. Think grandson of kaiser may be put at Mayence and in the report Paris that after this conference he would call a meeting of the supreme war council. The United States is not now represented on that council.

Anti-Kapp troops were reported mobilizing in the suburb of Treptow. A German official said he belongs to the organization, asserts 7,000 officers are pledged to take up arms against all reactionary governments such as Kapp's, and now are waiting for orders.

Control at Standstill.

Neither British nor French representatives received instructions to recognize the Kapp government, and it is understood the control commissions are proceeding on the theory they cannot transact business with a government that is not recognized officially by the entente governments. Therefore the business of the control has come to a standstill.

Proclamations late in the afternoon, signed by a commission representing the unions, attack the Kapp government as a military dictatorship.

In rioting at Kielman many were killed. A garrison supporting the Kappists is in control.

ROYALISTS OF HUNGARY SEE HOPE IN REVOLT

BUCHAREST, March 13.—Hungarian royalists are rejoicing over the revolt in Germany and claim it is justified on their argument that Socialist republics are incapable of surviving in countries where for centuries the people have been accustomed to monarchies.

In Munich the workmen united in presenting radical demands on the Bavarian government. At Bremen the workmen and soldiers of the Kapp government occupied the city of Magdeburg. There were clashes between workmen and soldiers at Cassel. The attitude of the troops stationed here is undetermined.

Threaten General Strike Against Polish Army Rule

WARSAW, March 14.—The central committee of the trade unions today notified Premier Skulski that unless the government withdrew the military measures taken in connection with the metal and electrical workers' strike a general strike would be ordered, effective throughout Poland. The railroad brotherhood is supporting the government.

FRANCE ASKING TIME, NOT PITY; HELP, NOT ALMS

Millerand Counts Rosary
of Woes Mars Left.

PARIS, March 15.—[By the Associated Press.]—Premier Millerand today discussed the relations between France and the United States and the conditions of international credit.

"No feelings of misunderstandings should be allowed to trouble our relations," he said. "To that end the sister misconceptions are dissipated the better. It appears to me an opportune time to recall now to our friend, the United States, that France is not asking for charity. The greater part of money France borrowed abroad was spent in the common interest of all the civilized countries—a fact which might form the basis of a claim of special consideration, but such is not our intention."

Will Pay Every Debt.

"We do not request cancellation of our debts. We only ask time to live and recover our strength after our and a half years of exhausting our. Our propositions are those which any debtor would feel right in making in the interest of both himself and his creditor."

The premier referred to the ruinous fluctuations in the rate of exchange.

"If France is obliged to meet her obligations abroad at the present rate of exchange, she would be forced to pay a half year's wages out of her own," he continued. "Thus after spending 36,000,000,000 francs borrowed from our friends she would have to pay 45,000,000,000 francs as France's premium to those same friends. Of course that is not what they mean to require from us."

"We have given our blood, we have given our money. To ask us now to do more than double our debt is an anomaly that cannot fail to strike the world. What comes here new something? But think of old light and dark, and that's what."

Grim Answer to U. S.

After mentioning the suggestion made by the United States that France could raise the value of the franc by increasing exports, Premier Millerand said that the question appeared to be imperfectly understood by the American people.

"We ask nothing better than increased exports. We must first, however, manufacture, and we can't make the things for foreign trade until we have factories in which to manufacture them."

"Do our American friends lose sight of the extent of the devastation of the greatest part of our territory? Do they forget that we are still partly paralyzed and that it will require years to recuperate our wasted power and restore the former flourishing manufacturing centers?"

The Rosary of Ruin.

"Hello, old timer," "How are you—why, I to this old hole it makes me feel as if something."

"Thinking. Don't let me show you a thing to pass the time," "We're out of the bag, we're out of good samples. Took on additional freight. Grigre said, "Show me stuff like I did, but you didn't attempt to make it better up."

MAIL MOUNTAINS BURST BOUNDS OF CHICAGO OFFICE

Get Extra Space, Help, for Record Rush.

The first real United States mail crisis in ten years, due to the added burdens brought by the express strike, taxed the resources of the Chicago postal organization last night.

Postmaster W. B. Carlile ordered every department head into the field to help handle the mountain of parcel post mail piling up hourly in the city, collected every available truck and labor, authorized the establishment of emergency stations, and kept the workers to Washington to help with reports and requests for additional help.

"The main Chicago postoffice and the Canal street branch are full to the ceiling with mail," he wired the first assistant postmaster general. "Side walks and driveways have been utilized to capacity, and we have been forced to use borrowed warehouses and train sheds to keep the mail under cover."

Conditions improved somewhat Sunday, due to working every Chicago employee all day and night to move the mail, but the great increase in the inbound parcels started again today and filled all available space.

Washington Lifts Bars.

Washington shot back a measure authorizing the employment of unlimited additional help and extra distributing stations.

"Notwithstanding the unusual burdens thrown upon us by the express strike," wired First Assistant Koons, "I feel the Chicago office will meet the situation. Accept all mail offered."

The Chicago chief then announced the taking over of the Crane warehouse by the U. S. Army. The Army relieved the dairy sheds at the Union station and trained men of the Northwestern. Detachments of mail distributors were assigned to the emergency stations immediately.

At midnight reports showed that first class mail is being worked on normal schedules, while deliveries of parcel post packages are about twenty-four hours behind time. More than 100 extra trucks were placed in service to help bring the parcel post to schedule.

Yule Rush Outrushed.

"The present mail crisis is unequalled by any Christmas rush on record," declared Postmaster Carlile.

"The express strike has brought a deluge of packages that we can't handle. We are up against it, but can announce there will be no embargo on mail of any sort and that the first class service will be held to schedule. By Wednesday we should have all mail going out on time."

Veterans pointed to the situation as another example of Chicago's need for the new postoffice and enlarged facilities asked of congress three years ago.

Postmaster Peter Reinberg drew up a set of resolutions memorializing the congressional appropriations committee to have a heart and save the city and its great tributary commercial field from paralysis.

WASHINGTON NEWS —IN BRIEF

BY ARTHUR SEARS HENNING.
(Washington Bureau of The Tribune.)

WASHINGTON, D. C., March 15.

The state department is without a head for the first time in American history, the resignation of Bainbridge Colby not having been confirmed by the senate within the thirty days during which Under Secretary of State Polk was able, under the law, to serve as acting secretary.

The house passed the bill authorizing the grain corporation to sell 5,000,000 barrels of surplus flour to European governments, for cash or credit, as a means of feeding starving people of those countries. Democratic leaders accused the Republicans of holding up the legislation.

The senate today adopted the new Lodge reservation to article 10 of the League of nations covenant by a vote of 56 to 26, one more than a two-thirds majority, but leaders on both sides of the chamber agreed in predicting the defeat of the peace treaty on the ratification roll call the latter part of the week.

Mothers Hunt for Missing.

Mothers in the neighborhood became hysterical and rushed here and there looking for their children. Some one notified the police that five children had been buried, and ambulances were rushed from West Chicago avenue and Desplaines street stations.

Two children were injured and about twenty others narrowly escaped being crushed late yesterday afternoon when the wall of a building in the course of demolition at Grand avenue and Carpenter street crashed into the street where they were playing.

The building was being wrecked to make way for the erection of the new George Washington school. The children were playing tag when the west wall, one story high, bulged and fell in a cloud of dust and flying bricks.

So Easy to Criticize.

"It is so fatally easy for critics, particularly at a time like this, when human thought is boiling and break down rapidly."

"The habit of criticizing other nations without the slightest regard for their difficulties or fears is not confined to England and America. But it has dangers all its own when hurled from England at America or vice versa."

"I venture to say that no American can feel all the legitimate pressures and considerations which help to mold every decision taken in the cabinet room at Downing street, as I know no Briton would claim to have even an inkling of one-half the anxieties molding the decisions at Washington."

Why Not Be Generous?

"Let us remember that it is quite impossible for two people to see every question from the same angle, or with the same clearness. Do not let us forget that the toad beneath the harrow is little likely to find much comfort in the butterfly's whispering."

"But let us stick fast to, let us keep a firm hold upon the big things that history has to teach us, that somehow, perhaps at times subconsciously, both peoples have driven the furrow straight and true, and most astonishingly parallel in their efforts to cultivate civilization."

"There is no evidence that I know that suggest that either is now contemplating departure from its traditional husbandry."

Followers of Ex-Kaiser in Switzerland Cheer Revolt.

TRIEST, March 14.—Gen. Caviglia, commander of Italian troops along the armistice line between Flume and Jugo-Slavia, has agreed to permit Capt. D'Annunzio to send children out of Flume to Italian cities. The children will go in small groups, the first to homes.

Departures of residents who have been in Flume less than ten years con-

tinued and a large number is constantly besieging the frontiers for permits to travel to Italy and into Jugo-Slavia.

Thousands have no place to go and have no prospects for work. The food shortage is critical.

Washington, D. C., March 15.—[Special.]—For the first time in American history the state department is without a head.

Acting Secretary of State Polk, legally serving for thirty days since the resignation of Mr. Lansing, reverted today to his own office of undersecretary, and the senate's delay in confirming the appointment of Bainbridge Colby leaves the cabinet office vacant.

AMERICANS WAIT IN POLAND FOR CONGRESS' VOTE

Several Thousand in Army
Want to Return.

WARSAW, March 12, via Paris, March 15.—With fair assurance at last that the Polish government will accept the peace, now serving in the armies of Poland, will be homeward bound within two months, an array of facts has come to light showing how these men have suffered from delay in repatriation.

The fact they shall mostly from Chicago, Detroit, and the rest of the middle west, bring the story home to some 5,000 families in that region who, because of delayed mails, have heard nothing from their boys for months.

Thousands Would Return.

Those who claim repatriation to the United States after hard fighting in France against the Germans and in the eastern marches against the bolsheviks, may be estimated roughly at 8,000. Of these about 4,000 can prove American citizenship.

As discontent grew apace among the Americans who had served under the banner of Gen. Haller, the Polish government took steps toward repatriation of the boys in the horizon blue. On Feb. 21 a general army order was issued to the effect American citizens could be immediately discharged and returned to the United States soon as ships were ready.

Ask Congress to Act.

It is understood here the state and war departments recommended to Congress a committee to be appointed to be sent to Danzig to bring Haller's troops home and that dispatch of the shipping waits only on an act of congress. Full information regarding requirements for passage has been sent to Washington by the legation here.

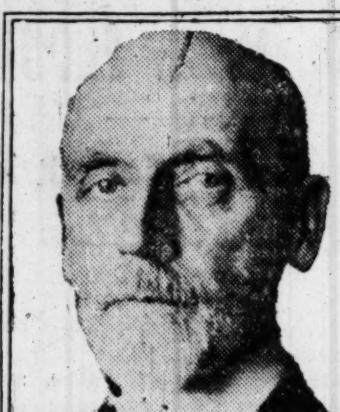

REDS MUST STICK TO BUSINESS ON TRIP TO BRITAIN

LONDON, March 15.—Replying to a question in the house of commons today, Premier Lloyd George announced that the government would permit the visit of a delegation of the Russian cooperative society, subject to the right to exclude individuals.

In this connection the premier emphasized that Maxim Litvinoff, the bolshevik assistant commissioner of foreign affairs, could not be admitted, because, on a previous occasion, he had taken advantage of his diplomatic privilege to engage in political propaganda.

It must be clearly understood, the premier added, that the delegation would be forced to confine its work to commercial lines.

MEXICANS SURE YANK SWORD IS SAFE IN SHEATH

Rely on Wilson to Keep
Them from Harm.

[The following gives the Carranza version of the election situation as far as it affects the successor to Carranza and probable subsequent events in Mexico. It was mailed from Mexico City Feb. 25, and is interesting in connection with Philip Kinsley's own observations as he has been able to give them since he left Mexican soil for the United States.]

BY PHILIP KINSLEY.
(Special Correspondence.)

City of Mexico, Feb. 25.—The truth about Mexico is very simple, according to Luis Cabrera, minister of finance and spokesman for President Carranza.

Mexico has been very ill, but now is out of the hospital, walking with crutches, and recovering every day in the sunlight of peace. As one of her physicians, Señor Cabrera is very hopeful of complete recovery if no new complications set in, such as election riots, an Oregon led revolution, or a new policy of interference on the part of her big neighbor to the north.

The secretary admitted today that his country faced a critical time next summer in the decision as to the presidential succession.

Carranza Intends to Quit.

"You may base all your political surmises," he said, "upon the fact that President Carranza will not remain in office one day after next Dec. 1. He has said so, and he means it."

"The great problem is to turn over his organization in its full strength to the man who is elected at the polls. The president will remain president

until the last day of his term. He will pull all his wires and use all his powers to hold together his national machine during that period when he is supposed to be weakest—after his successor has been named, while all faces are turned toward the new sun.

It was for this purpose that the meeting of governors was held here a few days ago. It was not to pick a candidate, but to back up any man chosen at the polls. It is for this that a new military campaign, swift and effective, will be launched against the three chief bands that remain, Villa, Peleaze, and Felix Diaz.

Fears Political Revolt.

There is danger of trouble in July. There is danger of a revolt in some quarters. But I do not think that Obregon or any one else can cope successfully with the organization that Carranza has built up, an organization that is growing stronger every day."

Secretary Cabrera does not claim that Mexico today is a safe and sound institution.

"All I can say is that this country is showing marked improvement in business, in agriculture, in the making of progress of all kinds, every six months' period," he declared. "That is the foundation for my optimism."

"Diaz had bandits for twenty years and the nature of this country makes it possible for one man with a stick of dynamite to do an injury which it takes a thousand men to repair. But we are reducing the bandit evil."

"I wish Americans could see Mexico as it is."

"The members of the Fall committee are invited here, but they will not come, for they do not want to see things as they are."

Safe" With Wilson.

"The attitude of President Wilson, however, toward the Fall investigation has led us to do nothing. We know that he is not with President Wilson and his dismissal of Lansing and the resignation of Ambassador Fletcher lead us to hope that we may find a new attitude toward us in the state department.

"The oil situation now is quiet. They are drilling again under a temporary arrangement. The next congress will have too much to do to take up the question of a new law covering that subject. The time will come, however, when all nations will follow our principle, that all subsoil rights should be nationalized."

"That does not mean that we confiscate any property or that we take away the rights of the vested interests. It means that we substitute the nation for the landholders as the leasing power. It is the same principle that we always have applied to our mines."

The body asked the interstate commerce commission to nominate C. E. Lindsey, an engineer, for a place on the control board provided for in the East-Cummins rail bill.

S. M. Follett, president of the Chicago World War veterans, told the engineers new federal legislation intended for relief of the railroads after their return to private ownership had not completely solved one of their greatest problems—the labor question.

He said the roads were not properly maintained under federal control.

Three taken as liquor thieves.

Edward Attridge, Frank Steele, and John Fleming were arrested yesterday and released in \$2,000 bonds each in connection with a theft of \$1,000 on Oct. 24 last at the home of Max C. Morris in Lakeview. Attridge has been indicted six times in connection with other north shore liquor thefts.

Trade union tactics cannot be adopted by the American Association of Engineers, it was announced last night at its annual railroad conference at the Congress hotel.

"We favor increased production, not the limiting of production to the ability of the most inefficient workers," said Cedric F. Smith, editor of the Professional Engineer.

16,800 Noises Per Hour from One Typewriter

Figure it out for yourself. Any good typist can average 70 words per minute, of 4 letters each. That is 280 noises per minute exclusive of spacing. Multiply this by 60 and you get 16,800 noises per hour.

Sixteen thousand nerve-tapping impulses! Sixteen thousand blows on sensitive ear drums! Is it any wonder the modern office breeds so many cases of "nervous prostration"?

All the Water in the World Won't Harm S-W VARNISHES

Varnish, like paint, must be made for a special purpose to get the best results. You can't use inside wall paint for outside protection. You can't use roof paint on the floor. Varnishes are just as different as paints. Sherwin-Williams make three varnishes which cover all needs, each best for its special purpose.

MAR-NOT on floors resists heel pounding and furniture moving.

SCAR-NOT protects furniture and woodwork against hot dishes and boiling liquids.

REXPAR resists all the rigors of year 'round outdoor exposure.

BLOODY MEXICO DUE TO WILSON, SAYS EX-ENVOY

President Wilson's policy of "watchful waiting" in Mexico has resulted in the present condition of anarchy in that country and has degraded the American flag, Henry Lane Wilson, former ambassador to Mexico, told the members of the Agave club at the Hotel La Salle yesterday.

"It was not for this purpose that the meeting of governors was held here a few days ago. It was not to pick a candidate, but to back up any man chosen at the polls. It is for this that a new military campaign, swift and effective, will be launched against the three chief bands that remain, Villa, Peleaze, and Felix Diaz.

who wrote the text books we Americans doctors study are suffering from cold and hunger in Vienna." Dr. Carl Beck said yesterday at a luncheon given by the Chicago Medical society and affiliated organizations at the Hotel Morrison. "We are going to raise \$500,000 and come to their assistance.

"At first the plan was to aid only the families of medical students and professors, but the suffering is so great throughout Austria that our help must be more general."

He read a letter from Prof. Nisberg, chairman of the Vienna relief committee, dated Vienna, March 27.

"The 12,000 crowns sent to Prof. Durig, famous Vienna physiologist, was received with a storm of joy by the 800 students there," the letter said.

"These students are starving and cold half the time. The doctor of Chicago has stopped receiving his 12,000 crowns."

He told of a widow of a staff surgeon and mother of a scientist who is in dire want at 78. Dr. Beck told of a professor's widow who is shining shoes and doing housework for two meals a day.

AMERICANS FEEL MOSLEM'S HATE IN MARASH AREA

Medical Missionary Sends Letter Out.

PARIS, March 15.—Special couriers arriving in Paris late last night brought duplicates of cable dispatches filed as early as Feb. 25 in Aleppo by Mr. Rue, Tribune correspondent. Non-arrival of these cables indicates that the French censor has clamped a tight lid on Syria, where the French officials control all communications. The following story was smuggled through that censorship.

BY LARRY RUE,
[Chicago Tribune Foreign News Service.]
[By Special Cable.]

Copyright 1920: By the Tribune Company.]
ALEPPO, Feb. 22.—[Delayed.]—Reports of Turk advances at Marash, Aintab, and other parts of the French zone in Anatolia causes a veritable reign of terror in native Christian circles here, and great anxiety among Americans for the safety of relief workers and other United States citizens in that territory. Part of Mustapha Kemal's troops claim they have wiped out the French garrison in Marash, have captured Aintab, and now are planning to attack the French Syrian zone. The Turks, former anti-Turks, now are reported killing and torturing without mercy. Details of the murder of the two Americans, James Perry, chief secretary of the Y. M. C. A. in the near east, and Frank L. Johnson, Y. M. C. A. secretary, between Aleppo and Aintab on Feb. 1, show the crime was committed in cold blood, the bandits knowing who they were and not mistaking them for French, as first supposed.

Even here in the Arab zone rumors of massacres cause the Armenians, many priests, and others among the educated classes to flee, terror stricken, to the Christian country. B. J. Jackson, bearing protestant. On Friday Mr. Jackson, to quiet their fears, personally asked that the Armenians be given assurances they were safe, with the result Arab guard troops paraded in all parts of the city the entire day.

Line to Marash Cut Off.

Communications from Marash have been cut off since Jan. 6, and letters dated Feb. 11 from Americans in Aintab reported the Christians and Moslems then were moving into different quarters of the city, preparing for a battle.

The French base is out of touch with the garrisons at Jerablus, Urfa, Mardin, and Diabekir, the Turks having cut the Bagdad railroad in several places. Airplanes, unable to land in Marash because of snow, report the Christians safer and American institutions "intact," but the rest of the city destroyed.

D. Lorin A. Shephard, a United States medical missionary, in letters mentioned, brought here by a Turkish spy who reports the road between Kilis and Aintab alive with bandits, gunning all Christians irrespective of nationalities, states the Moslems are boycotting all Christians, including Americans. The native Christians, he says, in terror are fleeing to the French garrison. Anxiety is expressed for Christians in the neighborhood. French protection is insufficient. The Turkish government is unable to control the fanatics, and any attempt to remove the orphans to the garrison would precipitate a crash.

Appearance of two French airplanes is said to have ameliorated the hostile attitude of the Moslems, but the crisis is far from over.

Two Classes of Turks.

The Turks are divided into two parties: First, fanatics who are for killing all Christians and immediate action against the French; second, moderate, wealthy, influential Moslems who want independence but urge no leaning either way.

It is certain that the moderates will unite with the fanatics against the French if a decision is unfavorable to liberty.

EDITOR REFUSES TO ANSWER JURY; HELD IN CONTEMPT

Judge Carpenter in the federal court yesterday entered an order finding H. Elwell, city editor of the Chicago Evening American, guilty of contempt of court for refusing to answer questions put to him by a federal grand jury. The court fined the defendant \$500 and ordered that he be confined in the county jail until he is confined to answer the questions. A stay order for ten days was entered upon request of Attorney R. D. Keesh for the defense.

"We consider the point involved so important to newspapers in general that we intend to carry this case to the highest court," Mr. Keesh said.

On a question as to whether the jury had been called to question Mr. Elwell again. Shortly after 2 o'clock Mr. Elwell went before the grand jury for a short time. The proceedings before the grand jury were revealed later when James F. Geddes, foreman of the jury, went before Judge Carpenter and in a written statement declared Mr. Elwell had again refused to reveal the source of the news story concerning grand jury proceedings against "Dr." William H. Sage, since indicted for accepting bribes.

The court action followed.

The Turks are divided into two parties: First, fanatics who are for killing all Christians and immediate action against the French; second, moderate, wealthy, influential Moslems who want independence but urge no leaning either way.

It is certain that the moderates will unite with the fanatics against the French if a decision is unfavorable to liberty.

Propagandist for "Reds" Coming Well Equipped

LODGE, March 15.—A bolshevik propagandist has been arrested in a coal bunker of a Finnish steamer bound for Sweden, says a dispatch from the London Times, from Abo, Finland. He had English, American and German passports, diamonds and money aggregating a large sum. G. O. P. PEACE AS FAR OFF AS TREATY ACTION

Factions Talk of Harmony, but Fail to Act.

Republican factional peace in Cook county shapes up about as rapidly as world war peace did in 1917. Somebody, apparently, will have to take a good licking before the emissaries sit around the conference table. There is plenty of loose talk about harmony, but as far as could be discovered yesterday there is nothing doing.

What is to be accomplished in a gathering is not agreed upon. It could stop the devolvement fight if the Republicans of Chicago realize they are going up against April under present conditions, must be accomplished within the week. The final day for withdrawal of candidates for ward committeemen is March 24.

Storm Signals Flying. Little showed on the surface yesterday that indicates a possible truce. The storm centers—the Sixth, Twenty-first, and Twenty-fifth wards—had storm signals flying.

In the Twenty-fifth ward the issue seemed to take shape as between Sheriff Peters and George K. Schmidt. The condition in the ward is such that city hall lieutenants say they are willing

POLITICAL NOTES

Supplementary aldermanic elections will be held on April 6 in these wards: Fifth, Eighth, Ninth, Twelfth, Twenty-first, Twenty-second, Twenty-fourth, Twenty-sixth, and Twenty-seventh wards, and there will be a preliminary election in the Eleventh for the Cullerton vacancy.

A recount of the ballots cast in the aldermanic election in the Twelfth ward was ordered yesterday by Judge Williams in the County court at the request of Henry Sonnenschein, who is contesting the right of Ald. Joseph I. Novak to oppose Joseph Cepak in the supplementary election on April 6.

Lowden's headquarters made public the result of a poll of Republican county chairmen in Illinois, made by the New York Sun and Herald. "It shows Illinois to be 94 per cent for Lowden, 3 per cent for Johnson, 3 per cent for Hughes, and none for Wood," the statement said.

Lowden's headquarters made public

Gov. Lowden departed last night for a week's speaking trip in Michigan. Today he speaks at Calumet, Houghton and Marquette, and tomorrow at Escanaba and Menominee. Friday he will be at Ann Arbor and Jackson and will make two addresses Saturday in Detroit.

The first of a series of weekly smokers in behalf of Joseph F. Haas, county recorder, candidate for Republican ward committeeman in the Twenty-eighth ward, will be held tomorrow night in Rockwell hall, 2137 Milwaukee avenue.

March 23 will be the only date for registration in Chicago, prior to the aldermanic elections and the presidential primaries of April 13. All unregistered voters who wish to participate in the ward committee contests or to vote for their presidential choice as between Lowden and Wood must get right with the books on that date.

Mr. Schmidt's candidacy is the gist of the pro-Peters declaration.

The Schmidt managers point to the record of the Brundage organization in having complied with all of the

terms of the alleged agreement of 1918.

In the Twenty-first ward the Brundage regulars claim with confidence that they can elect James F. Burns ward committeeman if the "stingers" can be kept out of the ward on April 13. They don't seem to care whether Edw. J. Litsinger stays in the race or withdraws.

"If Litsinger quits his deliverable strength might go to Peace, the city hall candidate," one of the Brundage managers said. "What we need to do is to keep the flying squadron of repeaters out of the ward and to stop the rough stuff that we know was staged in the recent aldermanic election."

Sixth Ward Pivotal.

The Sixth ward may develop as the Verdun affair of the primaries. The Sixth ward committeeman, elected on April 13, whoever he may be, will have enough voters in the county committee to hold the balance of power in the new organization, and the committee members vote under the cumulative system. The heavy Republican vote in the ward offers this chance. The contest between Roy O. West and Dr. W. O. Nancy has reached such a stage that only extraordinary efforts can secure an agreement between them. Meantime the city hall organization, now handled directly by Controller George F. Harding, sends out the word that R. J. McLaughlin already is a sure winner.

March 23 will be the only date for

Is After Your Good Will

The instant we secure your entire confidence, and know that you appreciate what we are trying to do, just that soon we will know we are reaching the goal of perfect service.

We are publishing these advertisements to convince you—the public—of our good intentions in the matter of first-class cab service for Chicago. In other words we are trying to think aloud—to you.

We know we are making some mistakes. But they are mistakes of the head. And we are merely human. It is probable that we will make other mistakes in the future no matter how earnestly we try to avoid them.

But we are giving you the best cab service for the least money possible, and we doubt if there is a man in Chicago who won't admit it freely. There are thousands who say that we have put Chicago on the Map with the best and lowest-priced cab service in the world. As a matter of fact we have forced practically every cab company in Chicago to meet our rates.

From this particular point of view, we have formulated a labor-policy whereby our employees become partners in the business. Do you know why? It is done to cement and develop their personal interest. You know that whether you enter a hardware store, a millinery store or bank, a partner is more courteous and anxious to please than an employee. It's absolutely logical and reasonable.

We are trying to create a Community of Partners that will be Utopian—in other words, Ideal. And the best proof that we are succeeding in this practical dream, is the attitude of the men towards you and the satisfied expression of the public.

We will keep you informed regularly of our hopes and ambitions. Meantime, you keep us informed of our faults. Watch our advertisements for future announcements and information. We promise they will be interesting.

Portable Two Spool Rotary Sewing Machines

Tireless in Making Up New Wardrobes

Spring time always brings countless needs of new clothes, and it is a simple matter to make them with these efficient motor-driven machines.

A convenient light-socket in living room, bedroom, or sun parlor furnishes the energy for the industrious little motor that goes away with tiring foot-pedaling.

And this portable sewing machine, in its polished hard-wood case, occupies no more space than an ordinary hat-box.

Perhaps the most unusual and certainly a very helpful feature is the two-spool feature.

A convenient extended payment plan of purchasing may be arranged.

ASKS PARTNERS OF BEN MARCUSE HELP PAY DEBTS

Creditors May Get 100% Under Landis Order.

Judge Landis demanded a "show-down" yesterday on the financial responsibility of partners of Ben Marcuse in his recent brokerage failure. The partners, Lew H. Morris, 440 Diversey parkway; Joseph Flinn, 533 Diversey parkway, and Frank Hecht, 2952 Lake Shore drive, were called upon by the jurist to appear before him on March 19 to show cause why they should not turn over all of their real, personal, and mixed property to the Central Trust company, as receiver, in order to meet all obligations of Marcuse & Co. It is believed that if Judge Landis holds the partners liable, creditors of the Marcuse company will receive 100 cents on the dollar.

The sudden development in the Marcuse bankruptcy investigation came yesterday afternoon when Harold Lachman, a former employee and now an alleged creditor of the firm, filed a petition in the federal court asking that all of the partners be held responsible.

Four Days Too Late.

According to the petition of Marcuse's partners limited liability in the firm were filed on July 2, 1917, four days after the old limited liability law for brokerage partnerships had been superseded by the act of June 28, 1917, which makes such an agreement illegal. Had the agreement been filed before June 28, the petition contends, it would have been a valid agreement and the personal property of the partners could not be taken for the Marcuse creditors.

When Judge Landis opened his inquiry, counsel for Joseph Flinn and Frank Hecht declared that their clients were only liable for \$95,000 each, the amounts they had deposited in the Marcuse organization when it was founded. They were designated as special partners and claimed a limited liability.

Lachman in his petition declared that the firm owes him \$20,000 and that each member of the firm is liable for the full value of his personal property.

Drop State Proceedings.

Recuperation proceedings instituted against the firm in the Superior court last week by Mr. Mayer, attorney of the partners, were dismissed yesterday by Judge Charles M. Foell on the motion of Attorney Mayer, representing Morris. The reason given was that the United States court had obtained jurisdiction.

Suit for \$3,000 against the brokerage firm was begun in the Circuit court yesterday by W. A. Hofnauer, who declared his action is to recover money lost through failure of the firm.

The special committee appointed by the Chicago stockholders to investigate Marcuse's affairs began its work yesterday and will present an audit of the books of the brokerage house within a few days. On the findings of the committee, which is composed of Ira Couch, Robert P. Schimmin and Warren A. Lamson, will largely depend whether the exchange will expel Marcuse, who is now under suspension.

Miss Alice Thompson, a Chicago attorney who has accepted the secretaryship of the Woman's Illinois Lowden league, is prominent in arranging for its initial meeting on Wednesday. Together with Mrs. Fletcher Dobyns, chairman of the woman's division of the Lowden campaign committee, and the executive committee from the state, Lowden league officials will hold a session at the Blackstone following a luncheon at 12:30 p. m.

Women from the state at large who are expected to attend Wednesday's meeting are: Mrs. Ernest B. Griffin of Grant Park, who is directing the women's activities in the Lowden state campaign outside Chicago; Mrs. Frank Funk of Bloomingdale, Mrs. Mary E. Bussey of Urbana, and Mrs. George E. MacMahon of Olney.

Mrs. Frederick A. Lorenz of Chicago is president of the Lowden league.

ARMENIANS HERE ASK 6 NATIONS TO HALT MASSACRES

Armenians of Chicago, after a mass meeting, yesterday prepared cables to be sent to the governments of France, England, Italy, Greece, Japan, and telegrams to President Wilson.

They "respectfully, but most energetically protest against the wholesale massacres perpetrated on the Armenians throughout Cilicia by the Turks and against the tentative plan of the peace conference to partition most of historic Armenia between the great powers and proposed future Turkish states, thereby leaving a small landlocked Armenia which will scarcely have a chance to live."

"Permitting the Turkish cruelties to continue is beyond our comprehension," they say, "and the contemplated partition of our historic heritage is contrary to the explicit pledges given by the allied and associated statesmen during the war."

A Vacuum Cleaner Can Do Only the Work it is Built For

The development of Sturtevant Vacuum Cleaners was not an accident. It was in keeping with Sturtevant's sixty years' manufacture of air apparatus. Sturtevant puts vacuum cleaning on the engineering basis of work to be done. One type of vacuum cleaner cannot do every kind of work; so Sturtevant machines range from three-wheeled portable vacuum cleaners for small homes to powerful stationary horizontal cleaners for public buildings, schools, and theatres. Every machine cleans entirely by air and is just as sturdy as the giant Sturtevant Fans and Blowers, the strongest in the world.

Stationary Vacuum Cleaners

A Sturtevant Stationary Vacuum System can be quickly installed in buildings already completed or in course of construction. A Sturtevant installation increases the value of your property.

The vertical cleaner, shown on the left, is a size "A," which is ideal for houses of ten to twenty rooms, using twenty-five feet of hose and one sweeper at a time. This model of cleaner is also made in sizes "B" and "B-2," which are intended for small

SUPREME COURT TO GIVE WET SIDE AMPLE AUDIENCE

Puts Off Vacation to Hear Every Argument.

Washington, D. C., March 15.—All phases of the prohibition question will be heard by the Supreme court before handing down its decision upon the validity of the prohibition amendment and the Volstead enforcement act.

Women from the state at large who are expected to attend Wednesday's meeting are: Mrs. Ernest B. Griffin of Grant Park, who is directing the women's activities in the Lowden state campaign outside Chicago; Mrs. Frank Funk of Bloomingdale, Mrs. Mary E. Bussey of Urbana, and Mrs. George E. MacMahon of Olney.

Mrs. Frederick A. Lorenz of Chicago is president of the Lowden league.

Having heard arguments in the Rhode Island, Kentucky, and Massachusetts cases, the court today granted New Jersey permission to institute original proceedings to test the amendment. It also fixed March 29 for hearing arguments in the New Jersey proceedings, on appeals by Christopher J. Feigenspan, a Newark, N. J., brewer, and on government appeals to injunction proceedings against the Manitowoc Products company, a Wisconsin concern.

The two appeal cases apply principally to the validity of the prohibition amendment so far as it relates to the manufacture of beer alleged to be nonintoxicating. The government won the former but lost the latter case, in the lower courts.

The court also took under advisement motions asking that arguments be heard on appeals involving interpretations of the amendment and the Volstead act docketed today from New York and San Francisco. The former appeal resulted from the denial of injunctions to prevent federal agents from seizing intoxicating liquors designed for private consumption, but held in storage.

In view of the multiplicity of requests for hearings, the court postponed a two week recess planned to begin March 29.

Dry Slayer Is Indicted.

New York, March 15.—First degree murder charges were filed yesterday against Stewart N. McMullin, a prohibition agent, who recently shot and killed Henry Carlton, a chauffeur, during a raid.

Assistant District Attorney evi-

dence would be produced to prove that McMullin served time in Sing Sing under the name of John Conway for a holdup.

Anti-Wets Defy Inquiries.

Westerville, O., March 15.—A statement issued today by the Anti-Saloon League of America on the proposed legislative investigation of the league in New York and that requested in Maryland by the Anti-Prohibition league, declares "there will be no investigation."

To make an investigation of the Anti-Saloon league, it is declared, would be to make an investigation of practically

every religious denomination in the country.

"Just imagine what such an investigation would include and comprehend," it declares.

3½ Per Cent Beer for Maryland?

Annapolis, Md., March 15.—A bill providing for the manufacture and sale of beer containing 3½ per cent alcohol was reported favorably by committee in the house tonight. The measure is similar to that passed by the New Jersey legislature. The bill applying the Volstead act to Maryland was reported unfavorably.

WHEN WAR IS MURDER.

Congressman Caldwell, Democrat, of New York, made a speech the other day in the house of representatives on universal military training. It was dramatic in its truth and convincing in its logic that it ought to have made an impression upon my political body. The truth of what the American troops suffered in France because of the military policy which the United States follows is real.

Facts are indictments and American politics and the American people are put on trial by them. In self-defense politicians and people try to shut their eyes to the facts, but they are accusing and insisting.

We murdered the boys who were put in the army and we shall murder the boys who are called again we do not change our policy. Mr. Caldwell, showing how untrained men were sent to death, said that from his district a boy was drafted who never had a gun in his hands before and five weeks after he was drafted he was buried in the trenches.

Congressman McKenzie of Illinois, an opponent of rational military policies, interjected the comment that the officers responsible ought to have been court martialled. This might be construed as evidence of contrition and stirring conscience, but cannot Mr. McKenzie and his fellow pacifists and fact dodgers see that they ought to bear the punishment?

Military men are not responsible for the helplessness of the United States. They have to work with the policy the politicians and American public opinion will give them. That policy is murderous and it insists that men shall not know how to do the thing the nation from time to time requires them to do.

A murderous policy hands them over to wars which they do not know how to fight. It provokes us because it presents a rich nation in a helpless posture. We always proceed as if we were able to defend ourselves and other nations know that we are not able.

We offer the greatest inducement for attack and we ask untrained young men to face war without proper training, without proper equipment, and without the knowledge or organization which makes it possible to fight wars economically.

Naturally 50 per cent of the casualties is waste, is in a real sense murder. It is murder of the most sacrificing elements of citizenship, nation complacent enough to do this and repeat and insist that it is repeated ought in justice to come right.

Mr. Clayton relates that his troubles were not all with the censors. Some of them were with American diplomatic agents who have no right to interfere between a correspondent and his public, but who do when they can.

"Even Hugh Gibson in Warsaw," Mr. Clayton writes, "has taken it upon himself to censor a dispatch which he believed prejudicial to the interests of his office in Warsaw. . . . It was turned over to the operator, who before sending it showed it to Mr. Gibson. The minister refused to permit its dispatch, a matter in which he had no authority. Gibson refused to request a place for Thomas Stewart Ryan of THE TRIBUNE on the courier train from Warsaw to Danzig until Mr. Ryan threatened to make a report on the matter. It is my understanding that Gibson is expected to assist rather than hinder American citizens in pursuit of their duties in his territory."

Many, probably most, of the men in American posts abroad are patriotic and serve the interests they are expected to serve, but some seek foreign positions for social prestige. To attain social ends some of the American representatives will serve the alien more assiduously than they will serve their countrymen.

An American whose first service is to Americans may not be handed much tea. The danger is frequently considerable. Europe knows how to use such ambitious men and get much good out of them with small effort.

Mr. Gibson may not be one in this class, but the class is large enough to cause considerable embarrassment to American interests.

police force, thus leaving his record technically clear. It is strange that another Negro policeman, McCall, has managed to keep his place on the police force, although repeatedly accused of violations sufficient to have caused the dismissal of any white policeman.

We hope the civil service commission can come to look upon the police force as an agent of public safety and not a reward for political perspicacity. The race question requires ordered and thoughtful solution. It should not be aggravated by small departures from common judgment.

If McCall has been a persistent violator of police regulations the colored people should be the first to insist upon his dismissal and his replacement by a substantial man. The progress of the race is to be made by good deportment and not by condoning the bad.

JUDICIAL REFORM.

The judiciary's article for the new constitution, formulated by a joint committee of the Illinois and Chicago Bar associations, undoubtedly embodies the best professional opinion of the state and should place the administration of the law on a plane of higher efficiency and economy. Its provisions for a consolidation of the various Cook county courts and for increasing the power of the courts to make rules of procedure and for controlling administrative machinery establish reforms long sought and demonstrated elsewhere to be desirable.

Within certain broad lines it is agreed by the profession that the courts themselves should be free to make or alter rules of procedure and administration, rather than be governed by legislation, and the proposed article is framed for this end. But on two or three points the article raises doubts. It is desirable to keep the judiciary as free as possible from political entanglements and pressure and to confine its functions as strictly as possible to the judicial field. Is it consistent with this important principle to vest in the Supreme court the right to fix increases and decreases in the number of Circuit judges, as provided in section 11 of the proposed article?

It is advisable, further, to provide that all judges shall be elected at a single election? We know from experience that our politics is likely to move in waves, and that the choice by the people of judges is not immune from influences having little to do with judicial fitness. If all our judges are elected at one time for a term of twelve years it is possible that such an election will be held in political circumstances of intense partisanship or other public excitement, with results unfortunate to judicial standards or to our general welfare.

The provision for a new category of judicial officers to be called assistant judges, to take care of what are termed petty cases—that is, to take the place of our present Municipal judges—has met the objection of Chief Justice Olson, himself a champion of court consolidation and simplification. He contends that such assistants would lack the authority of judges, and that interests of the poor, ignorant, and obscure, who have sought the Municipal court for justice as a people's court, are likely to be neglected if assigned to a branch of our courts admittedly inferior in rank and dignity.

We trust all of these suggestions and perhaps others which may be disinterestedly urged, especially by friends of judicial reorganization and simplification, will be carefully and fairly considered by the convention before the judiciary article is finally adopted.

AMERICAN REPRESENTATIVES ABROAD.

John Clayton of THE TRIBUNE foreign news service, writing from Reval, relates some of his experiences in trying to get news through to the United States. The restriction, if not the corruption, of news for popular effect on American opinion, frequently for the distortion of American opinion, has been one of the purposes of censorship pressed far beyond the necessities of war.

Mr. Clayton relates that his troubles were not all with the censors. Some of them were with American diplomatic agents who have no right to interfere between a correspondent and his public, but who do when they can.

"DESCANT not to me," writes the author of "Fifteen Men on the Dead Man's Chest"—descant not to me of the bliss of life in portable homes. It is the potable home that I am looking for with the lamp of William Henry Diogenes."

Sir: Did you ever ride on a street car in one of those towns where no one has any place to go and all day to get there in? The conversation runs something like this between the motorman and conductor:

Conductor: "Ding ding!" (Meaning, "I'm ready when you are.")

Motorman: "Ding ding!" ("Well, I'm ready.") Conductor: "Ding ding!" ("All right, you can go.") Motorman: "Ding ding!" ("I gotcha, Steve.") Then they go.

The men admitted that the last seance in which they participated had lasted for twenty-four hours and that they were so devoted to the boards they did not take time off to eat or sleep.

APONIPEXY due to embolism generally comes on suddenly in a person beyond middle life. In some cases the individual knows that he has had a high blood pressure and that the disease which underlies the embolism most frequently are heart disease, rheumatism, and pneumonia. Among the symptoms of embolism are sudden onset of paralysis, generally one-sided, and occurring usually in a comparatively young person who gives a history of heart disease or rheumatism.

The third and more important form of apoplexy is that which is due to rupture of a blood vessel, attended by hemorrhage into the brain. In hemorrhagic apoplexy there is a break in a previously healthy blood vessel. The blood pours into a certain area in the brain, destroying tissue cells in the area.

INQUIRIES SHOW IRREGULARITY IN LIEBERMAN BOND

State Unable to Collect on Forfeiture.

The bond investigation in the Criminal Courts building yesterday revealed apparent irregularities in the bail of another important fugitive from justice—Ben Lieberman of 1333 West Twelfth street, whose companion, Isadore Goldberg, confessed to a part in the \$30,000 robbery of the Klein Loan bank.

Lieberman's bond originally was fixed at \$10,000, but was reduced to \$4,000, and on Jan. 9 Assistant State's Attorney J. P. Moran approved a schedule of property presented by Frank Norwitz, a butcher, of 4401 South Lincoln street. Lieberman was released and vanished.

Affidavit in Case.

In order to make a bond of \$40,000, the law required Norwitz to own real estate worth twice as much. His affidavit, on file, shows that he posted two parcels of land, South Honore and 4401 South Lincoln street.

The former he represented to be worth \$40,000, the latter \$14,000.

The property was not mortgaged, Norwitz said, but he had previously signed a \$3,000 bond in the Criminal court, leaving an equity of \$1,000—according to his own representations—which he was free to schedule, or \$29,000 less than the law required.

Question of Values.

The records of the assessor's office put the value of the South Honore street property at \$10,250, and the South Lincoln street parcel at \$1,500. To assume that the assessors' figures are 25 per cent too low—which experts agree is usually true—all the property would bring at a sale not more than \$22,000—or a little more than half the face of the bond.

Also, the title books of Recorder Joseph Hahn show that the real estate a man jointly by Norwitz and his wife and there is also a trust deed of record against the South Honore street parcel.

The lack of the wife's signature alone would be sufficient to prevent sale of the property to satisfy even a part of the claim for forfeiture of the bond.

Nab Theological Student on Peeping Tom Charge

Herbert Holtgreen, 21 years old, of 2408 Orrington avenue, Evanston, a student at the Swedish Theological seminary, was arrested by the Evanston police last night while peeping into the windows of the home of Anthony Doetach at 715 Lincoln street.

Holtgreen admitted he had been caught peeping into windows in Michigan City and said he came to Evanston six months ago to stifle his curiosity.

"It hurts my conscience," he said, "but I can't stop it."

FRANCE BESTOWS MEDAL ON RELIEF UNIT OF SMITH COLLEGE

The silver medal of the "Reconnaissance Francaise" has been bestowed by the French government on the Smith college relief unit for its work in caring for the civil population both before and during the retreat of the British army, when the young women, often under shell fire, took the children, the sick, and the aged to places of safety.

MISS EDNA TRUE (Koehe Photo). Two Chicago women were members of the unit, Miss Ruth D. Joslin, class of 1912, of 1300 North Dearborn, and Miss Edna True (1909) of 5338 Kenmore avenue, who is now acting Chicago chairman of the \$4,000,000 endowment fund drive for Smith college.

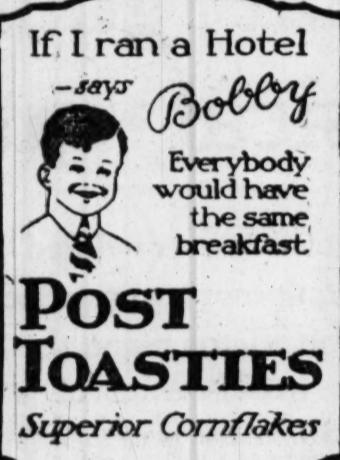

Miss Margaret Wood (1912) of Pasadena, Cal., had been studying in Chicago up to the time she joined the unit.

Eddie Jackson, the Immune, Again Gains His Liberty

Edward Jackson, known to the police for fifteen years as "Eddie the Immune," was given his freedom again yesterday by Judge James Donahoe in the Des Plaines street court.

This time Eddie, who had been arrested a few days ago and charged with grand larceny and petty larceny, gained his freedom through the failure of Louis Goldman, 3106 West Sixteenth street, and John Mulvry, 2047 Park avenue, complainants to identify him as the man who had picked their pocket on a street car March 6.

Mr. Goldman and Mulvry appeared in court to prosecute but failed to identify Jackson.

Spring Exposition in The Store for Men

An Exposition of All That Is New in Apparel for Men

Spring brings a spirit of newness. The world looks new; men lay aside their winter clothes, as quickly as possible, to get in the spirit of the thing. The Store for Men is ready. Everything is Springlike here; and Easter less than three weeks away.

Shoes Oxfords or High

In spring it is merely a matter of personal preference as to the choice of high or low shoes. The Pedestrian, Calumet, Gotham and Custom—all the old lasts are here, and some new ones, too.

Second Floor

Shirts Woven Madras

A very strong value at \$4 are these new woven striped madras shirts. And also very neat. The colorings are varied enough to please a wide range of tastes.

First Floor

Underwear of Linen Mesh

Linen mesh has been very difficult to obtain, but fortunately we have a quantity of these fine, soft, medium weight garments at this opportune time.

Shirt and Drawers, \$5 each. Union Suits, \$10.

Second Floor

Topcoats—the Smartest Weaves and Models from Exclusive English and Domestic Sources

Imported Coats of west of England tweeds and homespuns; smart fitted coats; and a far wider assortment of new light Spring shades than one would expect to find even in as complete a stock as this.

Topcoats which men will like not alone because of their exclusiveness but for the character of finish and tailoring which is readily apparent.

Hats Narrow Brimmed

Have a rolling brim, quite narrow, and the bow is in the back. In a light gray it is very smart. This style is priced at \$10, but there is a host of others as low as \$6.

First Floor

Neckwear Embroidered Figures

Hand-embroidered in many colors are these attractive figures in Venetian style. Backgrounds are in shades to harmonize.

The scarf is a little narrower than the average. But this is only one of many new things. \$3 each.

Third Floor

Silk Hose Hand-Clocked

Some are plain, others drop-stitched, but either way the richly colored hand-clocked add much to their appearance. With the coming of oxfords, hand-clocked are proving immensely popular. \$4 pair.

First Floor

Spring Suits More Distinctive in Fabric and Model

Fine imported fabrics are desirable, perhaps the more so because so difficult to obtain.

Our relations in foreign markets have made it possible for us to search the authentic sources of supply for the finest woolens. We thus obtain fabrics which are not generally obtainable in clothes ready for service. Not alone in fabrics are these clothes superior, for they are tailored according to the most exacting list of specifications known in the clothing industry.

Third Floor

Clothes for Young Men in the Young Men's Room

It was but a few years ago that such fine clothes as these for young men were unheard of. They are of as fine fabrics as are obtainable—they are trimmed and tailored in a manner which means something to young men who appreciate the finest.

Third Floor

Leather Coats for Spring Motoring

Open-car driving for many weeks will demand a garment of warmth. Leather Coats are windproof, naturally very warm. Short, three-quarter and full length Coats, leather on one side, gabardine on the other, \$35 up.

Fourth Floor

A Raincoat and Topcoat Combined

Never has a Raincoat presented so smart an appearance as do these new Spring models. To all appearances they are Topcoats, yet the showerproofing gives them the utility of a Raincoat.

CONVICT 'BRAINS' OF ROBBER BAND WHO FLED LAW

Fence Is Found Guilty, Though a Fugitive.

When the situation began to look black for Fred McKinney, alleged "brains" of a \$100,000 burglar and "stick-up" band, he decided not to await the verdict of a jury in Judge Anton T. Zeman's branch of the criminal court.

So on Saturday evening, while at liberty on a \$7,500 bond, he emulated the Arabs by folding his tent and has not been seen since, according to his family.

But, despite the absence of the defendant, Assistant State's Attorney William S. Stewart continued to present evidence to the jury yesterday involving McKinney in the holdup of Patrick J. O'Connor's saloon at 2500 West Lake street on the night of Dec. 23, and the jury found McKinney guilty of robbery with a revolver.

The verdict was unusual in that McKinney was not alleged to have been in Chicago when the crime was committed by Sam Catanzaro and Salvatore Tomasino. As the man who planned it, however, the law construed him to be equally guilty and fixed his punishment at imprisonment in the penitentiary for ten years to life.

McKinney, if found, will be sentenced today with Catanzaro and Tomasino, who have confessed.

A jury heard evidence against Joe Carrao, another member of the gang, yesterday and is expected to return its verdict this morning, when John Gowaron's trial will start.

Rides Bicycle Into Trap and Loses \$100 to Robbers

Albert Weeks of 1721 Washington street, Wilmette, was riding his bicycle in Gross Point last night. His wheel suddenly stopped but he continued—over the handle bars. Before he could recover from his surprise three men stepped out from the shadow of some trees and robbed him of \$100 which he had collected as agent of the Prudential Insurance company. The hoodlum men, apparently acquainted with Weeks' custom of making his collections on a bicycle, had stretched a rope across the street between some trees. The men escaped.

OILED SAWDUST IN ICEBOX; NAB TWO AFTER FIRE

Peter Sudnaf and George Kamper were arrested last night at the request of Fire Attorney John R. McCabe in connection with a fire, supposedly of incendiary origin, which broke out at midnight Sunday in a grocery and butcher shop of which they were the proprietors at 335 Kensington avenue.

The flames swept through the two story frame structure with such rapidity that the owner of the building, who lived on the second floor, barely escaped with members of his family.

The windows of the store were blown out by an explosion of kerosene and firemen, fearing other explosions were imminent, fought the fire. An investigation, made by the police and Joseph O'Donohue, his assistant, and detectives assigned to his office disclosed that an ice box had been filled with kerosene-soaked sawdust and a fifty-gallon tank of the coal oil had been punctured with a nail at the bottom so that the liquid would run out on the floor.

Sudnaf and Kamper claim they were in Racine, Wis., and did not return to Chicago until 1 o'clock yesterday morning. Sudnaf, who conducted the butcher shop, recently sold a partnership and the grocery concession to Kamper for \$1,165. The proprietors carried \$5,500 insurance.

The verdict was unusual in that McKinney was not alleged to have been in Chicago when the crime was committed by Sam Catanzaro and Salvatore Tomasino. As the man who planned it, however, the law construed him to be equally guilty and fixed his punishment at imprisonment in the penitentiary for ten years to life.

WOMAN BEATEN BY ROBBER DIES

Miss Mary Loughlin of 5559 Wabash avenue, robbed and beaten by a Negro robber Feb. 18, died yesterday in St. Bernard's hospital.

It was 7 o'clock in the evening when the man attacked her. She was going home and had reached Garfield boulevard and Wabash avenue. The man stepped out of a doorway, struck her over the head, knocked her down and kicked her.

Then he stole her purse and escaped. She was unable to give the police a good description of him as it was dark and she had not seen him plainly.

Her sisters blame the "poor police protection" for the murder of Miss Loughlin.

Harper Pennington, Scion of "Signer," Artist, Dies

Baltimore, Md., March 16.—Harper Pennington, artist, died today after a long illness. Mr. Pennington was 70 years old, a son of the late William C. Pennington. His mother, who was a member of the Harper family, was a descendant of Charles Carroll of Carrollton, a signer of the declaration of independence.

The committee referred the settlement offer to a subcommittee.

URGE CITY END BRIDGE SUIT BY PAYING \$527,074

Attorneys for the city recommended to the council finance committee yesterday that \$527,074 be paid to the Strauss Bascule Bridge company in settlement of its claims for patent infringement. The recommendation, after the committee's vote to lay off 688 city employees for lack of funds, plunged the budget makers into gloom.

The case has been dragging through the federal courts for eight years. Seven months ago the U. S. District Court of Appeals heard against the city. The opinion is not yet in. The city's attorneys state they fear the award against the city might exceed \$1,000,000.

Commissioner of Public Works Francis blames the size of the claim on former Commissioner of Public Works Bennett, former City Engineer Ericson, and Thomas G. Philfeld, the city's bridge engineer.

"We could have settled for about \$240,000," Mr. Francis said. "But when I took office I did not think it wise to act against the judgment of men who were more familiar with the case than I was."

The committee referred the settlement offer to a subcommittee.

\$5,000,000 WAR HOSPITAL WON FOR CHICAGO

Hines Gets \$3,500,000 for Speedway Plant.

Chicago will soon have a \$5,000,000 government hospital for experimental work in caring for the thousands of wounded and crippled during the war. Edward Hines has won his long fight to have a modern government hospital on the site of the old Maywood speedway, and the entire project, which will be known as Broadmoor hospital, will be completed, he said yesterday, within four months.

Work on the project was begun more than a year ago and was ordered stopped and recontinued several times as controversy about it raged.

Started as a Memorial. Four times the bill, authorizing a treasury department to take over the hospital was signed and as many times a new fight was started from somewhere to block it. Mr. Hines, who began the hospital as a memorial for his son, Lieut. Edward Hines Jr., who died in France, spent months of his time and many thousands of dollars in fighting the opponents of the project. Now the final contract has been signed by Secretary of the Treasury and the first payment of \$1,400,000 will be made within a few days.

The total congressional appropriation is \$3,500,000. Mr. Hines stated that the hospital would cost \$5,000,000 before it was completed.

"It means a lot to Chicago," Mr. Hines said. "I can see in it the nucleus that is to make Chicago the medical center of the world. This is the first great project Chicago has received from the government, too, and I am sure others will follow."

Absolutely Fireproof.

"What I have always been most interested in has been to have a hospital absolutely fireproof for our boys who have been made invalids or had their health ruined by the war. A safe hospital is due them. They have that kind of a hospital at the Speedway.

The main building is 2,040 feet in length, 50 feet in width, and four stories in height.

The hospital grounds include 320 acres. A part of the forest preserves near the grounds. The main building will have room for 2,500 patients and four more buildings are to be constructed.

Service for Manufacturers

The Robert T. Pollock Company offers a unique service to the manufacturer, in dealing successfully with the problems of production.

The staff embraces industrial engineers specially trained in each line of effort that is of value in putting production on a 100% basis in quality, volume and economy.

"Production"—an interesting booklet—explains our service. It will be sent to any manufacturing executive on request.

FARMERS PLAN TO PUT CHICAGO AT OCEAN'S DOOR

Urge Great Lakes-St. Lawrence Project.

BY FRANK RIDGWAY.

The Farmers' Grain Dealers' National association is to get behind the Great Lakes-St. Lawrence tidewater project, according to the plans of the delegates in their first day's meeting of the annual convention at the Great Northern hotel yesterday.

Action will be taken today by the organization, which represents 4,000 grain elevators, to help put the proposed water route through. The plan is to widen the canal to the St. Lawrence river so that boats can start from Chicago and go direct to Liverpool. This will bring Chicago 700 miles closer to Liverpool. It is pointed out by the delegates that this would greatly relieve the transportation problems of the whole United States. The new water route would make Chicago, Duluth, Milwaukee, Detroit, and Toledo ocean points, and would relieve the congestion at New York, Boston, Philadelphia, and Baltimore, the big export points.

Put Cost at \$100,000,000.

It would cost \$100,000,000 to do the work, but it is claimed that the power produced by the water that will pass through the canal will offset this sum.

There was a big car shortage this year because of the depression at the terminals, which has affected the marketing of wheat. This is one of the problems that the delegates are considering. Thirty-five per cent of the 1919 wheat crop is still in the bins in Kansas, Oklahoma, and Nebraska, according to the officials of the organization, and it is there because of car shortage.

Talk of Guarantee.

The fact that wheat growers are unable to market their grain brought up important questions at the meeting concerning the government's price guarantees, because the authority to buy in protection of the guarantee ends June 1. This means that farmers who have not been able to market their grain will have to sell it after June 1 at whatever they are offered, prices being regulated according to conditions, for there will be no guarantee.

250 Cook County Farmers Organize Farm Bureau

The Cook county farm bureau was organized at a meeting of Cook county farmers in the Hotel La Salle yesterday afternoon for the purpose of promoting and protecting the agricultural industry. The constitution, indorsed by 250 or more farmers, stipulated that all members should be "bona fide farmers, excepting the treasurer."

UNION WORKMEN OF GREAT LAKES WANT NEW SCALE

File Demands as Start of Traffic Nears.

Demands for a 30 per cent wage increase, an eight hour day, and a minimum wage for overtime were forwarded yesterday to representatives of the shipping owning interests by Victor Olander, president of the Great Lakes-St. Lawrence's union.

The demands are made by the three big unions of great lakes seamen—marine firemen, marine cooks, and sailors.

No time is set for an answer, but

navigation on the lakes usually opens up the latter part of April, and unless a settlement is reached before that time the seamen probably will refuse to go to work.

Raised Twice During War.

Because of the short season on the lakes the seamen's wages have always been 40 to 50 per cent higher than those on the ocean. Wages were raised twice during the war. Previous to the war able bodied seamen and firemen

received \$55 a month for two-thirds of the season and \$65 monthly for the remaining third. They now receive \$100 a month, while ordinary seamen and coal passers get \$75. The wages of cooks vary on different vessels.

Copies of the demands were forwarded to: William Livingston, president of the Lake Carriers' association, Detroit; O. W. Boddett, president of the Lumber Carriers' association, Bay City, Mich.; A. Shantz, president of the Passenger Boat Managers' association, Detroit; J. C. Evans, president of the Great Lakes-Transit corporation, Buffalo; and to the United States shipping board and the secretary of labor at Washington.

Last to Ask Eight Hours.

"Our main grievance is against the Lake Carriers' association, which has failed to live up to the conditions of three arbitration decrees handed down by the shipping board," Mr. Olander said. "We have about 10,000 men in our organization. Marine firemen have had the eight hour day since 1915, and we want the same day for the sailors and cooks."

"No strike vote has been taken and none will be taken until after the results of the negotiations have been reported back to the men. We are not asking a six day week as yet, although the seaman should be entitled to one day of rest a week as much as any other workman."

CITY HOPEFULLY REOPENS FIGHT FOR 5 CENT FARE

The city hopefully resumed its fight for a 5 cent street car fare yesterday by filing a petition for a rehearing of the 7 cent fare case in which the state Supreme court recently decided against the city.

The petition, filed in Springfield by Corporation counsel Ettelson and Chester Cleveland, the city's special traction attorney, alleges the court "entirely misapprehended the concrete case before it, and that the soundness of every legal propositions announced by the court might be conceded, and still the ultimate conclusion arrived at was not warranted."

The petition alleges that in upholding the public utilities commission's order of Aug. 6, 1919, the court assumed the order was made to enable the companies to meet increased operating expenses and keep out of bankruptcy, whereas the order was to enable payment of increased expenses and insure a fair return on the value of their properties.

But the petition continues, no fair valuation was made before the order was entered.

JUDGE DEFINES HOW NEWBERRY STANDS IN TRIAL

Acts Causing Use of Money Approve It.

and Rapids, Mich., March 15.—Between opposing counsels on the interpretation to be given to the section laws in the conspiracy case involving the election of Truman H. Newberry to the United States senate brought this statement from Judge Newberry.

"I shall charge the jury that if Senator Newberry participated actively in the things which caused the expenditure of money, then he caused it within it."

Rules on State Laws.

The judge said the state statute is only referred to by the federal law "as a measure of the amount which may be expended or used or caused to be expended or used," and that "what someone else may spend has nothing to do with it."

"That is the reason the amount submitted to \$3,750," replied Judge Newberry.

Speaking on the expressed preference of the jury, the sessions devoted to closing arguments are to be four hours each. Each side is to have a total of eight hours.

Spills Pleas of Defense.

Both government and defense arguments were started today. W. H. Nichols talked three hours for the prosecution. Then Mr. Nichols talked an hour and will talk an equal time tomorrow.

Martin W. Littleton of New York will start his closing speech for the defense Wednesday morning, giving him an hour then and an equal amount this afternoon.

With five hours left for government pleas, Frank C. Dailey, assistant United States attorney general, will speak. Littleton will speak again Thursday to wind up the case. W. Heine, Democratic defendant, is to address the jury tomorrow.

VOTERS DOZE AT CON CON SWITCH IN RUSH HOURS

Fail to See What Gets Clear Track.

BY OSCAR E. HEWITT.

Springfield, Ill., March 15.—(Special.)—Should the power be taken from the legislature to prohibit colored men from marrying white women?

Does labor want the state industrial board, which administers the workers' compensation law, retired permanently from operation?

Who desires a professional nurse taxed for earning money in caring for the sick?

Is there any objection to new methods of taxation, as on unearned incomes?

Why put the Chicago Municipal court of business and permit justices of the peace to continue to operate?

Not one of these questions is trivial.

Each is involved in a proposal which has a chance of being placed in the next session of Illinois by the constitutional convention.

To illustrate the power behind some proposals, the Illinois and Chicago associations are urging the last suggestion.

What Chicago organizations think of these and like questions remains almost a secret.

The representative business, labor, and civic organizations of Chicago have done little to inform the delegates what they desire put in or kept out of the constitution. If they delay much longer the opportunity for the most effective work will have passed.

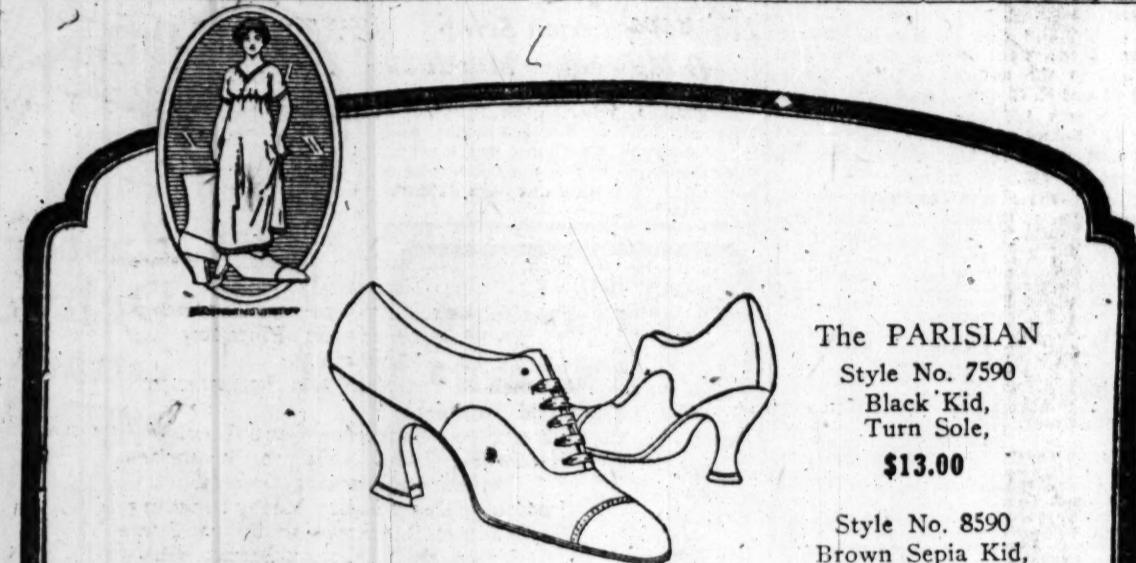

Will Discuss Taxation.

Representatives of the railroads and of the agricultural interests are scheduled to make their plans tomorrow on taxation.

At the early hours of 8:30 o'clock tomorrow morning the state labor program is to be considered in the train discussed with them the fifteen proposals in which women are interested.

He said he got the impression that they will oppose the disenfranchisement or other penalization of persons who fail to vote and the plan to make jury service optional for women, preferring that the constitution remain silent on women jurors.

Cruden further said that the women favor the plan of Delegate Trautman to prohibit more than one election each year.

The Newest Style in Paris and Chicago

Time was when Parisian women turned up their pretty noses at American footwear. Now they wear American shoes and boast of them. This well-made Walk-Over Oxford is in the latest style—Louis heel, short vamp, and fuller rounded toe. A new cut, quite the rage in Paris. In our large American cities, smart women are making it one of the most stylish of the new models. It's the thing!

Autocar Users Can Count On Continuous Service

Whitaker Mfg. Company—Found by experience that Autocar Direct Factory Branch Service was the surest protection a truck buyer could have.

This is made possible by the Autocar service system rendered by the manufacturer of the Autocar through its own factory branches.

The Autocar is that sturdy truck, with short wheelbase, which you see getting in and out everywhere—no matter how crowded the traffic or how close the quarters.

BROWNS MAY BE 'DARK HORSE' OF FLAG SCRAMBLE

Burke Boasts Aggregation of Scrappers.

BY JAMES CRUSINBERRY.

Taylor, Tex., March 15.—[Special]—If the St. Louis Browns could trade a portion of their diligence and a bit of their enthusiasm for a star left handed pitcher and a first class infielder, Manager Jimmy Burke might be leading a team in the world's championship series next fall.

It is possible, but improbable, for him to do it with the talent already on the team. However, after a two days' peek at the Mount City aggregation, one feels justified in saying St. Louis is a dark horse in the A. L. pennant race.

The Browns are not boasting. They surely are working, and it's easy to see they are pulling together. All seems harmonious on the club. The manager is boss and the players are for him. The fellows talk little about themselves, but a talk with any of them is an indication all are figuring on just what a team must do to beat out Cleveland or New York or the White Sox.

Made Most of Poor Diamond.

Ball players who are figuring out problems like those are secretly figuring on winning a pennant. Even a bad practice diamond in their camp failed to ruffle the Browns. The people of Taylor, Tex., attempted to construct one, but it's gummy and has gravel in it. A few carloads of real clay or black dirt could have remedied that. The citizens, however, did build a swell clubhouse with lockers and hot water for shower baths.

There is a modern hotel to house the athletes and the only time any of them become scarce in the dining room when a scarcity of help causes delay in serving dinner.

The Browns have George Sisler. Any team has a chance to win a pennant with such a player. Sisler has ripened into a real star. It should not be surprising if he supplants Ty Cobb as leading hitter and base runner of the league. He is likely to accomplish such a feat this year.

Welman's Fitness Big Item.

If Manager Burke is worrying at all, it is over his pitching staff. He possesses one of the best left-handers in the game in Carl Welman, the tall, slim star who has been handicapped by illness during the last two seasons. He was late in reporting because of an attack of the flu, but if he recovers thoroughly and regains his form, the chances of the Browns will be good.

The veteran Lefty Leifeld and a green recruit from Tulsa, named Billy Bayne, are the only other southpaws on Burke's staff, and one must have southpaws to fight the coming battles.

At the start of the season Allan Sotheron, the clever right handed hurler who has been throwing curves, fast ones, spitters, and shiners for the last two years, is likely to be the leading pitcher. Of course he can't throw the shiner any more, but he has a good curve and an active brain.

Pitcher Davis Has Record.

Much good pitching should be done by Urban Shocker, formerly of the Yankees; Bert Gallia, the veteran who was late in reporting because of illness in his family, and Dale Davis, who was a star and lost four games for the Louisville club last year. Horace Leverette, a veteran who was a star at Minneapolis some years ago, and would have gone to the Cubs had he not injured his arm, is back for another trial after some seasons as a semi-pro in Minneapolis.

In the infield, of course, Sisler stands out prominently, but the veteran Jimmy Austin at third base, who never seems to grow old, is back with more pep than any of the others.

At the middle bag, the Browns have Walter Gerber at short, and Joe Gedeon at second, both capable defensive players, but lacking in brilliancy. As a general thing, champions have exceptional men around the key-stone sack.

Eugene Robertson, a boy off the St. Louis lots who was carried with the Browns all last season, seems about ready to break into a regular job. He's likely to take Gerber's place in many games. Billy Mullen, another lad picked up in St. Louis, is after Austin's job, and if he doesn't get it this year he'll get it some time unless he grows old before the veteran begins to show.

Much Budding Talent.

Frank Thompson, at Joplin last year, is another third sacker who may need to grow up a bit before he reaches the minors, and the same is true of Joe Hiltner, last year with Mobile. Ernest Lee, a lad who is a wonder in fielding and who learned on the lots in Denver, is a shortstop who will be heard from some day, and John Shovlin, who performed splendidly for Joe Tinker at Columbus, is a candidate for Gedeon's job at second base.

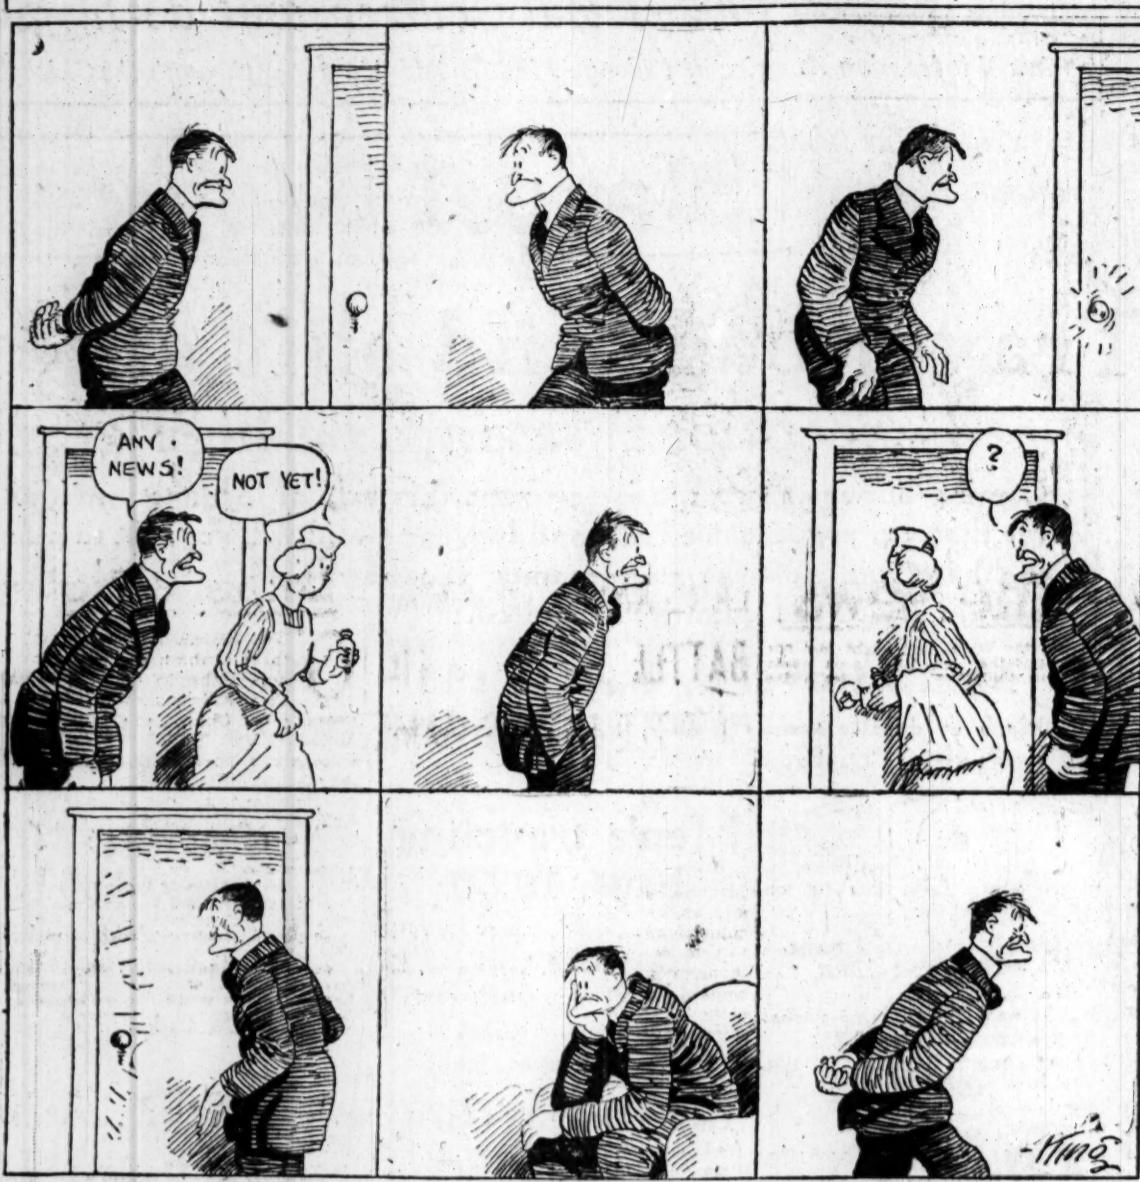

The St. Louis outfit compares favorably to others, with Johnny Tobin in the middle, Kenneth Williams in center, and Big Bill Johnson at the right. All have heavy hitters and several men. Earl Smith, who was tried by the Cubs and turned loose, is the utility man.

With Hank Severide on hand, the catching is sure to be well taken care of. He is rated about third best catcher in the league. His chief helper is Josh Billings, with the club last year. Pat Collins from Joplin will be the third backstop.

Walter Hagen Is Winner of West Coast Pro Title

Bellair Heights, Fla., March 15.—[Special]—Walter Hagen of Detroit won the West Coast open championship today when he completed the 72 holes in 222 strokes. Jim Barnes of St. Louis was second at the beginning of the morning round, but Leo Diegel of Detroit crept up and took his place with a total of 364. Dave Robertson, another Detroit pro, tied with Barnes and Louis Tellier of Boston for third money. Eddie Loo of Beverly was next with 310, and Tom McNamara took eighth place. The last to figure in the money was 311. Next in line were Mike Brady, Jock Hutchinson, Charles Hoffer, and George Bowden.

MATHIESEN TOPS BOWLING CRACKS WITH 675 SCORE

Other Changes in Leaders of A. B. C. Tourney.

Peoria, Ill., March 15.—Frequent changes among the leaders in the singles, doubles and all-events marked play today in the American bowling congress.

C. Mathiesen of Chicago, rolled into first place in the singles late today, registering 675. He got away to a bad start, scoring only 172 in his first game, but a brilliant finish, bringing a 257 count in the second game and 246 in the third, made him the new leader.

A. Schultz and F. Hanck, Sheboygan Wis., went into a tie for first place in the doubles, with O. Whitehead and E. Grubb of St. Louis. Their score was 2,257.

R. Schmidt, Chicago, rolled into fourth place in the singles, with a score of 641. Standings:

STARS MISSING, GLEASON FINDS JOB TOUGH ONE

Light Workout with Recruits in Waco Camp.

Waco, Tex., March 15.—[Special.]—With many of the old stars still missing, the White Sox were training today to get a team ready for the season's opening, only about four weeks away. A host of recruits was present and the first day's work was rather light, but at the same time vigorous enough to cause copious perspiring.

Unless the stars return pretty soon it will require much more perspiring, especially on the part of Manager Gleason, to get an outfit ready for the championship contests.

Missing Trunks Show Up.

Two boys were on the field at 10:30 a.m. and tossed the ball around and a bit of jogging about the park, but after one hour of it, Gleason chased them in. The wind was blowing hard but it wasn't cold. Some of the trunks got lost on the way down and several of the athletes were unable to work because their shoes and gloves weren't here.

A train at noon time brought the missing baggage and the entire squad of about twenty-five players was out for the afternoon session, which was devoted mostly to batting drill because the regular infielders had not reported and an infield drill was impossible.

Kid Sizes Up Young Hurliers.

Four of the veteran players and five of the kids took turns pitching to the batters. This gave the boys their first peek at some of his young hurliers, but he wouldn't let any of them attempt to throw curves or put any great speed on the ball.

Walter Miller, John Tesar, and Sid Stewart, all Chicago semi-pros, showed up well on the slab. George Payne, with Des Moines last year and for his second trial with the majors, looks as if he might make good. Spencer Heath, the Chicago boy who performed at Winnipeg last year, has the size and appearance of a coming star.

Kerr Hooks a Few Over.

Lefty Williams, Red Faber, Grover Lowdermilk and Dick Kerr were the veterans who did a turn on the rubber, and Kerr looked better than any of the others. He was in camp on a moon train along with Wilkinson. Kerr spent most of the winter in Texas and worked out at home. He looked almost fit to pitch a game. Several times he hooked over his curve for the boys to look at.

Manager Gleason is beginning to worry a bit about his missing infielders. With Weaver, Gandy, McMullin, and Risberg all absent and Collins not coming for a few days, there is no infield. Harvey McClellan was the only one of last year's set on hand today. Young Bill Lutzke from the Winnipegs did some stunts at third that stampeded him as a good prospect.

Train Kills Player Who Got Start with Babe Ruth

Hornell, N. Y., March 15.—Thomas Padgett, who was a pupil at St. Mary's Orphan home in Baltimore and left that institution with "Babe" Ruth to become a player in the Canadian league, was killed by an Erie train here today. Both boys joined the Hamilton Ont. team, Ruth later going to the big league and Padgett coming to the Interstate league here. When the league disbanded he went to work as a railroad brakeman and was killed at work today.

Expect Record Field in Central A. A. U. Games

ROY E. DAVIS, chairman of the athletic committee of the 1st infantry, Illinois reserve militia, which will stage the Central A. A. U. indoor senior track and field games March 27 at the Broadway armory, yesterday announced that entries will close Saturday with Charles A. Dean, 14 East Jackson boulevard. Nominations already have been received from the leading clubs and colleges, and a record breaking field is expected to compete.

TELLS PLANS FOR OLYMPIC TEAM TRYOUTS HERE

U.S. Swimmers Picked on Showing in Chicago.

Everett C. Brown, member of the American Olympic committee, which met in New York last Saturday and completed arrangements for the selection of the United States team in the games at Antwerp, Belgium, this summer, returned to Chicago yesterday. Details of the trials and the many plans have been completed for the picking of the team. He asserted the committee acted in harmony and that it was the consensus that one of the strongest teams which ever represented this country will be mustered.

Enter Any Sectional Trials.

The committee said it will be optional with the athletes where they compete. There are any number of star performers attending eastern colleges whose homes are in the central west. These athletes will be permitted to take part in either the eastern or central west tryouts.

"Although the tryouts in track and field to be held on Stagg field June 26 will be great, the swimming trials awarded Chicago will be of even greater importance," Mr. Brown said. "Swimmers from all sections of the country and those of Hawaii must come here for the trials. It should be the greatest gathering of natators ever seen in this city."

Only One Meet Considered.

It should be understood that the tryouts on June 26 are the official trials for the district. The committee will not take cognizance of any other meets despite reports to the contrary. I shall appoint a committee in the near future, to be known as the central west Olympic committee."

MORE COIN OR TRADE, IS WEAVER'S DEMAND

LOS ANGELES, Cal., March 15.—[Special.]—Among the spectators at the Cub exhibition game today was Buck Weaver of the White Sox, who announced he would leave tomorrow for the east and planned to stop off in Waco to see Manager Gleason.

It is Weaver's stand that ought not be expected to fill the rest of his three year contract because Comiskey is a friend of Fraze, and Fraze did not compel Mays or Ruth to live up to their scrapes of paper. If Comiskey does not want to pay the money he is worth, Buck contends he ought to be traded to New York, where he can get it.

LINOW ARRIVES FROM EAST FOR ZBYSZKO BOUT

Jack Linow, who is matched to meet Stanislaus Zbyszko in the main bout of the wrestling show at the Second Regiment army Thursday night, arrived here yesterday from New York, where he picked up a few of the fine points of the game from Joe Stecher, Earl Caddock, and Ed (Strangler) Lewis. Linow said he is in great shape and expects to beat the Pole.

Zbyszko will arrive this morning, according to officials of the 11th infantry, I. N. G., which will stage the show.

Popular tickets can be obtained at Bloom & Maynard, 4 North Clark street, and at Second Regiment army, Madson and Rockwell streets.

"Strangler" Lewis Flops Caddock on Gotham Mat

New York, March 15.—Ed (Strangler) Lewis of Lexington, Ky., threw Earl Caddock, former wrestling champion, at Madison Square garden tonight with the head and hip lock at 1:35:45. It was said after the bout that Caddock's right arm bone had been fractured.

Jim Lendas of Greece threw Salvatore Chevalier of France in 36:22 with a body scissors and double wrist lock.

Stagg and Williams to Explain Rule Revisions

When coaches of the Big Ten football teams meet in Chicago Saturday to select officials for the fall games of Chicago and Dr. Williams of Minnesota, members of the rules committee, will be asked to explain more extensively the few changes made in the rules at the meeting in New York City last Saturday. Other matters of interest in the gridiron mentors also will be discussed. The athletic directors of the conference colleges will meet Friday.

CUBS BRIGHTEN UP; WIN GAME AND HEAR HERZOG MAY BE BACK

BY I. E. SANBORN.

Los Angeles, Cal., March 15.—Cub camp brightened a bit today with the possibility that Herzog may be able to keystone the infield at the start of the season after all by postponing his return to anatomical training. Whenupon the Cubs licked the Angels in a benefit game, 9 to 4, but it didn't count in the cup series.

When news of Herzog's ailment was passed to William Wrigley Jr. and Ad Lasker, owners of the Cubs, the latter made a date with a super-specialist on anatomy and had the second baseman examined again. The revised verdict was that Herzog would be unable to indulge in any violent exercise for at least three months if he underwent an immediate run.

May Walt Till Autumn.

However, the diagnostician advised the players to have their harnesses made and this may permit him to play ball without aggravating the trouble and delay the operation until next fall.

Merle's injured limbs were sufficiently improved to allow him to navigate without pain, and another day or two of treatment will enable him to get back into the game.

Flack will give his charley horse a few more days in the pasture before donning spangles again. The Cubs are still in the middle of a strenuous workout, a session of skill practice at the hotel being substituted by Manager Miller in deference to the sore arm squad.

GUY F. LEE.

A yarn which rolled along the highways of baseball for many years, and for all that is still rolling, concerns the late George Edward (Rube) Wadell, than whom there were no whiners in his day.

"Did Waddell, in a championship game, ever call in his outfields and then strike out the next three batters?" is the question, and a lot of wise baseball men will answer in the affirmative.

Here is the official bouquet of facts.

Waddell never turned such a trick in a championship game. Connie Mack, who ought to know, is the authority.

"The Rube has often been credited with the trick," says Connie, "but it is simply a good example of American fiction."

Rube often staged this circus stunt

MARSHALL FIELD & COMPANY

The Spring Exposition

"Oriental color has made its way over Europe like some gorgeous bird of the tropics."

From China—Old in Beauty

comes this peaked Hat of great youthfulness. Not only like a pagoda roof in silhouette, not only Oriental in the colors of its raffia embroidery, but taking an alluring queue of braided, silver-tipped ribbon, it leaves no one in doubt as to the land which inspired it.

While this Hat is more indicative than any other of the Chinese influence, one notes any number of Hats in some manner Chinese. They may have the round, upturned brim, or the peaked crown, or an ornament mounted from the center of the crown.

Hats from Salons des Débutantes, Fifth Floor

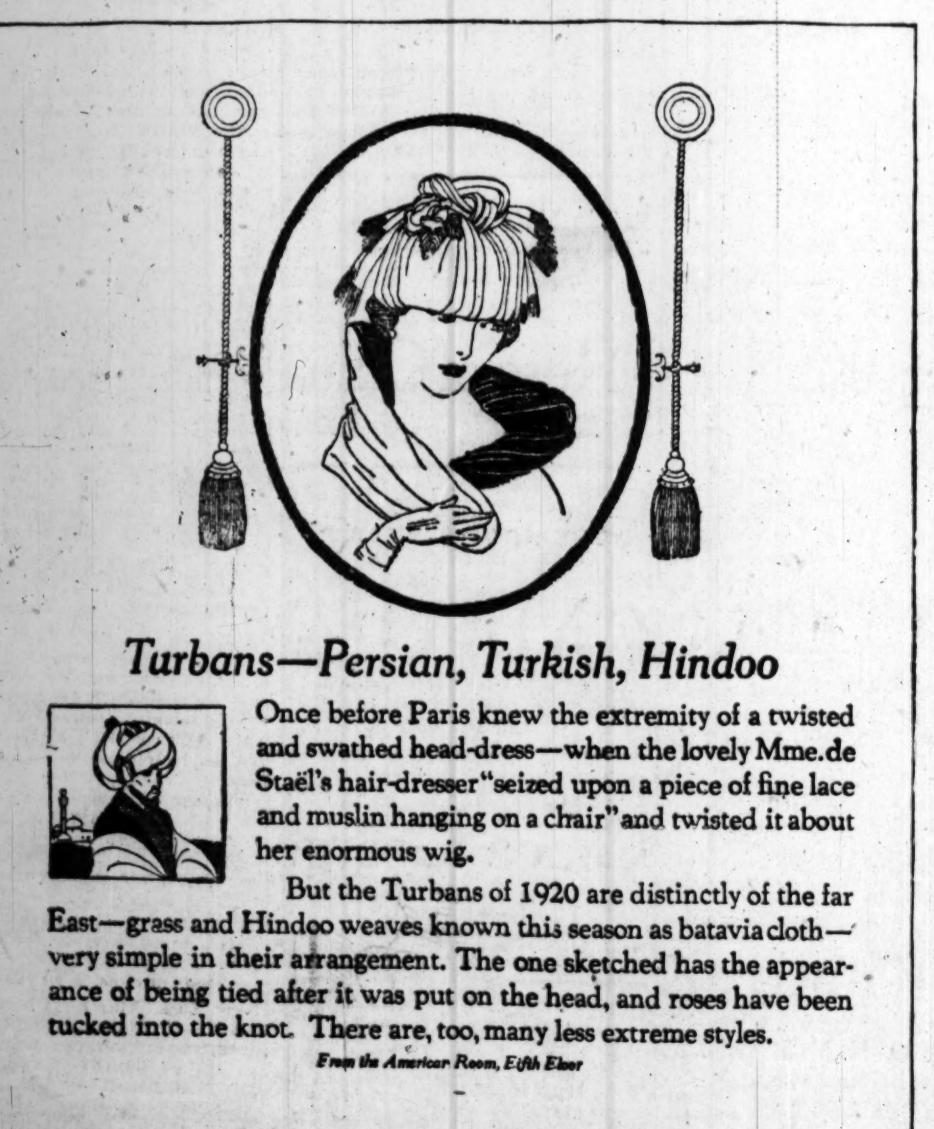

From a Spanish Head-dress

This graceful affair of black Spanish lace is mounted only on a silver cloth bandeau. A cascade of beautiful pink roses falls to the wearer's shoulders, much after the manner in which a strolling gypsy might arrange her gay silk bandanna.

Nor does this Spanish influence in a season of Oriental inspiration prove Fashion's fickle. The Spanish gypsies were undoubtedly of far Eastern origin, lured, as someone has said, to Southern Spain because its sun has an "almost Oriental splendor."

Hats from French Salons, Fifth Floor

Turbans—Persian, Turkish, Hindoo

Once before Paris knew the extremity of a twisted and swathed head-dress—when the lovely Mme. de Staél's hair-dresser "seized upon a piece of fine lace and muslin hanging on a chair" and twisted it about her enormous wig.

But the Turbans of 1920 are distinctly of the far East—grass and Hindoo weaves known this season as batavia cloth—very simple in their arrangement. The one sketched has the appearance of being tied after it was put on the head, and roses have been tucked into the knot. There are, too, many less extreme styles.

Hats from the American Room, Fifth Floor

Hats for Spring

WHEN all the fashionable world might well have come to believe that there was no new thing in Hat styles, that the designers must have exhausted every source of inspiration—when Hats patterned after military headgear are passé, and Hats traceable to great historical epochs lack newness—behold, the resourcefulness of the French, in presenting us with Hats patterned after those of many a foreign land!

In the Millinery displays this week, the peaked Hat of Chinese coolies shares attention with the swirled Turban of Eastern lands; and the scintillant head-dress of old Egypt vies with the draped kerchief of sunny Spain.

Good taste has been at work—translating barbaric, irregularly-woven stuffs into elegant Chantilly laces; perishable braided rushes into fine leather; lines too extreme have been modified; exquisite ornaments have been effectively employed.

Women accustomed to dressing in quiet, good taste need not despair that their requirements have been neglected in the season's diverting riot of bright raffia, brilliant leather, dyed beads.

While the part far lands have played in Spring 1920 styles is insistently demonstrated on every hand, the quiet simplicity which many American women prefer has been so well-studied and ably presented that it gains a new charm. The entire Millinery Salons present their Spring Exposition now.

Fifth Floor, North and Middle Rooms

"Woman Decorative . . . struts in the stiff manner of Egyptian bas-relief across walls of ancient ruins, or she may be seen in a serene gait through the future through the narrow slits of Egyptian eyes."

Spring Accessories

"Give the most careful attention to your extremities—shoes, gloves and hats . . . and we would add, umbrella, parasol, fan, jewels; in fact, every detail."

IN A SEASON when Oriental color and line dominate many of the styles, it is not surprising to find painted Parasols in Japanese shape. One has a gorgeously colored peacock decoration. Others are delightfully quaint, many-ruffled affairs; others, again, shepherd-checked taffetas of tailored silhouette, with smart handles.

First Floor, State

Handkerchiefs and Gloves

The former color-tipped, or all of color, with monograms of unusual distinction; the latter in the favored eight-button mousquetaire style in all of the desirable Spring tones.

First Floor, State

Brilliant Sashes or Slender Belts

Spring Fashion defines the waist-line in either of these extreme ways. The Roman striped and bayadere Sashes are richly fringed in color; while the leather Belts continue narrow and modest in hue, sometimes nickel-studded.

First Floor, South, State

"Andalusian" silk Scarfs, shaped in the true Spanish fashion, come in cream and black lace.

Lace Section, First Floor, State

Beautiful hand-carved Spanish Combs of various shapes are fitting accessories.

First Floor, Middle, Wahab

Beaded Hand Bags of Fine Workmanship

reproduced, in exquisite colors, Persian motifs, while new silk Bags—moire, French-striped and checked—are mounted with sterling, celluloid or metal.

First Floor, Middle, Wahab

Even Hosiery Is Color-Touched!

Gold embroidered, or lace medallion inset and Persian rose outlined, or having strangely arched motifs, novelty Silk Hosiery takes on the colorful character of the season. Certain pairs are color-beaded.

First Floor, North, State

Gorgeous Ribbons of Oriental Inspiration

A wide, black Ribbon takes an all-over pattern of little gay flowers, a Persian hunt in which stags and hawks and horsemen are prominent, and large gold medallions of Persian ladies strolling in a garden.

A tinsel Ribbon is striped with what seem to be a series of views, apparently lifted from a Chinese garden, in which colorful fans, dwarfed trees and bridges are mixed.

Catkins of the Nile are embroidered on a poplin weave; bright green and blue birds and junk boats drifting on a red sea lend a tropic color to another. Cryptic, angular Egyptian ladies and iridescent lotus blooms are brocaded on others.

First Floor, North, State

Vestees of Tricotette and Duvetyn are also stamped with the impress of the Orient, Persian chase and Chinese garden being presented in a variety of vividly-colored patterns.

First Floor, Middle, State

All the ACCESSORIES OF DRESS SECTIONS feature the newest ideas in the Spring Exposition this week.

**NAB 2 MORE IN
BERTHA WIEBECK
DEATH INQUIRY**

**Chambliss Dismisses His
Political Lawyers.**

State's Attorney Hoyne's detectives make two arrests last night in connection with the death of Bertha Wiebeck. A man and a woman, both Negroes, were held incommunicado after an inquisition into the 17 year old white girl's charge against Dorsey Chambliss, Negro ex-politician, which lasted until after midnight.

George T. Kenney, the prosecutor's secretary, said he was convinced the prisoners knew the name of the truth of Bertha's assertion that the former politician placed her in a house of ill fame, where he and other men of his race visited her, than they had been willing to reveal.

Four other witnesses, including a Negro policeman, were interrogated. The second police officer is declared to be one of a number whom Chambliss conducted to the residence of Mrs. Emma Ross at 3525 South State street while the girl was held captive there.

Question White Woman.

Three colored men and a white woman were the others subjected to the prolonged questioning of Assistant State's Attorneys John Prystalski and James T. McShane and Morris Wilson, chief investigator of the state's attorney's staff.

Unless Chambliss is indicted by the grand jury, he, the state, will be obliged to reveal its evidence when the former patrolman is arraigned before Judge Stelk in the Municipal court on Wednesday, charged with no offenses which involve jail penalties. According to Attorney General Brundage, the Chicago crime commission and other civic and social organizations, which have espoused Bertha's cause, Chambliss should be tried as a felon.

May Free Two Witnesses.

The prosecutor may elect to drop the Municipal court case before it is returned. In that case, however, Mrs. Ross will be released from her bond, and James (Peg Leg) Murphy, who is alleged to have been Chambliss in the house with the girl but who now denies it, will likewise be freed. The latter has been in jail as a witness.

Mr. Kenney refused to say definitely that Chambliss' indictment would be avoided.

"If we were to indict," he said, "we would expect to convict."

Dismisses Two Lawyers.

Chambliss dismissed as his counsel yesterday, both Ald. Louis B. Anderson of the Second ward, and James P. Harrold, law partner of Ald. John H. Lytle.

The accused wrote letters to both his former lawyers. The one to Anderson read:

"I am convinced from the various newspaper publications in relation to my case that your position as alderman is responsible for the repeated intimations that political influences were being exerted in my behalf. This, I believe, tends to prejudice my case in the public mind. My chief desire is to have a hearing in court, free from any imputations of sinister influence."

"With that end in view, I have concluded that my best interest is this matter will be served by your consenting to let me employ other counsel who are free from political connections."

The letter to Mr. Harrold was similar, except Chambliss mentioned the attorney's "business association with Ald. Lytle" as the factor that might tend to prejudice his case.

New York, March 15.—Coastwise shipping interests today canceled all passenger bookings and placed an embargo on freight consigned to southern ports because of the strike of longshoremen for higher pay and shorter hours.

The men are demanding an increase from 65 cents to \$1 an hour, with \$2 an hour for overtime, although at a conference with managers of the coastwise steamship companies late today, union leaders agreed to modify their demands for \$1 an hour and \$2 overtime, saying the rate of \$0.80 an hour and \$1.20 for overtime, which is paid to longshoremen engaged in handling deep sea cargoes, would be acceptable.

**Recover \$13,000 Silks and

Three hours after the West Chicago police heard that \$13,000 worth of silks had been taken from a freight car in the yards at Carroll avenue, they had recovered the goods and arrested three men—Nels Inglesierson, 44 Milwaukee avenue, switchman; William Martin, 819 North Mozart street, and Edward Hammell, 630 North Central Park avenue. Inglesierson confessed that the three men had taken the silks to his home. The police who made the arrests are Sergeant Hugh McCarthy, and Detectives Vandy Swenson, Pfeinkuiche, and Bur-

Philadelphia, Pa., March 15.—[Special.]—Back to crinoline and ruffles for the "child set" of Philadelphia. No more of the Theda Bara backless gowns with the tantalizing shoulder strap for the child of 14 or thereabouts.

There are to be 8 o'clock parties, ending at midnight, and something less pretentious and indigestible than refreshments for a four cent supper.

So decreed the fashionable "Parents' Union," which in sheer desperation, met at the home of Mrs. Charlton Yost. An executive committee was appointed, headed by Mrs. John S. Newbold, to draw rules putting a stop to the popular mimicry of the older set.

**2, Lashed to Rigging 14
Hours, Survive Wreck**

Woods Hole, Mass., March 15.—Survivors of a crew of six, four of whom were washed away by high seas, Capt. William Reicker and Seaman Joseph C. Watkins of the schooner Isabell K. Stetson were brought here today by the coast guard cutter Acushnet. The men had been found 14 hours lashed to the rigging of their craft which sank on the west side of Handerhook Shoal yesterday morning.

**STRIKE CANCELS
SHIP BOOKINGS,
TIES UP FREIGHT**

New York, March 15.—Coastwise shipping interests today canceled all passenger bookings and placed an embargo on freight consigned to southern ports because of the strike of longshoremen for higher pay and shorter hours.

The men are demanding an increase from 65 cents to \$1 an hour, with \$2 an hour for overtime, although at a conference with managers of the coastwise steamship companies late today, union leaders agreed to modify their demands for \$1 an hour and \$2 overtime, saying the rate of \$0.80 an hour and \$1.20 for overtime, which is paid to longshoremen engaged in handling deep sea cargoes, would be acceptable.

**Recover \$13,000 Silks and
Arrest Three in 3 Hours**

Three hours after the West Chicago police heard that \$13,000 worth of silks had been taken from a freight car in the yards at Carroll avenue, they had recovered the goods and arrested three men—Nels Inglesierson, 44 Milwaukee avenue, switchman; William Martin, 819 North Mozart street, and Edward Hammell, 630 North Central Park avenue. Inglesierson confessed that the three men had taken the silks to his home. The police who made the arrests are Sergeant Hugh McCarthy, and Detectives Vandy Swenson, Pfeinkuiche, and Bur-

**75,000 PAY TAX
OF \$100,000,000
HERE ON LAST DAY**

**\$400,000,000 Chicago
Total Sets Record.**

Seventy-five thousand men and women paid income taxes in Chicago yesterday. Dollars came in in quantities that deluged hundreds of perusing government workers on the fifth floor of the federal building over even cash drawer that could be commanded into service and eventually had to be sealed and boxed and sealed hourly to the federal reserve bank.

The tax payers fought heroically through the day to make their contributions. They all had visions of iron doors of Leavenworth prison opening on the stroke of 12 midnight and had no intention of falling short of that deadline with their income taxes.

Rush Keeps Up to Midnight.

Until midnight the last day rush stormed the federal building. An estimated \$10,000,000 had rolled into the treasury by 7 p. m. and Collector Harry W. Mager estimated that \$75,000 schedules calling for more than \$400,000 for the year had been checked off to the credit of Chicago.

Reports from every substation in the city, the Tribune branch, banks, department stores, and district branches showed the same remarkable increase in tax returns. One Chicago corporation had rolled under the last day wire with \$6,000,000 for the general "Jack pot." Another paid in \$3,000,000, and other big firms, determined to collect their interest on their tax money until the last minute, swelled the record breaking total.

Scorns "Six Figures."

At 3:30 p. m. when the crowds about the return desks and cashier cages were largest, a big business man pushed his way through the press demanding loudly for service.

"Get your receipt," laconic deputy advised, pushing the taxpayer into line. "Then go to the cashier."

"Business is important," protested the man. "Runs to six figures. Where's the boss?"

"Six figures are pikers," returned the guard. "The boss can't bother to talk about a million today. He's busy. You can pay bright here."

\$3,000,000 in One Lump.

Even the proximity of \$3,000,000 in currency, carried in a huge box by E. B. McCabe, former collector in charge of the Peoria district, failed to cause a stir in the crowded corridors. The Peoria agent lugged his money into an elevator filled with anxious taxpayers, he had to say.

FRED C. ULRICH, St. Charles, Ill., a reporter for the Tribune, was asked to say what he should say. "I loaded up bonds and now I find the price has taken a big tumble. I can't even get the

\$280,000 LOAN MADE ON WEST SIDE BUILDING

BY AL CHASE.

A \$280,000 loan has been made by George El. Spy on the new eight story building he is erecting for the Automatic Electric Co. on 100x100 at the southeast corner of West Van Buren and South Morgan streets. Mr. Spy gave a trust deed secured by the property to the Central Trust Co. The loan is for ten years, 6 per cent. The building will cost approximately \$500,000.

The Automatic company will move its general offices from their present plant on the southwest corner of Van Buren and Morgan as soon as the new building is completed, probably May 1. It will occupy the four upper floors with offices and use the lower four for manufacturing. The present office space will be used for manufacturing.

Western Avenue Deal.

The David J. Molloy company, bookbinders and supplies, 629 Plymouth place, has bought from C. B. Smith and W. J. Zuker through J. P. Steward & Co. the two story building just completed in Western avenue, just north of Diversey, east front, running back to the river, 150x100, with 18,000 square feet of floor space, for a reported \$30,000.

The Briggs Candy company has leased from J. M. Moos, through the Hool Rausley company, the L shaped store in the Textile Building, Adams and Wells, for ten years at a term rental of \$7,000. This was formerly used as a saloon at 15,000 a year. The basement of the Textile building has been leased to Louis Smart for ten years by the same brokers at a term rental of \$18,000, to be used for a billiard and pool room.

The fifteen apartment building at the southwest corner of Kenmore and Berwyn avenues has been sold by Margaret Ostrander to A. S. MacFarlane through W. G. Young & Co. for a reported \$70,000.

Magnolia Corner Sold.

Charles Chapman has purchased from James L. Thomas the apartment property at the southeast corner of Magnolia and Leland avenue, 1001x158, for an indicated \$12,000.

John W. Huber has purchased from Arthur Weinreb the thirteen flat building, containing one store, at the northwest corner of Vincennes and Avenue and Fortieth street, 80x108, for an indicated \$42,000, subject to \$20,000.

Building Permits

Eight permits were issued. Those in excess of \$5,000 were issued to: 7032 N. Paulina, 1 story garage, Charles Ferguson, owner; E. E. Sommers, mason; 1 story residence, 12,000; Radtke, owner, 1 story, Rochelle, Section Mix Co., owners; H. H. and Mrs. M. Schleyer, mason; 12,000; Hotel Randolph, alterations, 50,000; Holabird & Roche, architects; Griffith & Sons, mason; 12,000.

COFFEE MARKETS.

NEW YORK, March 12.—Futures at a net decline of 30 cents, points, coffee at 75. 14% to 144% cents; Santos 4x24x45c. Brasilia, 14x145c. Santos 4x24x45c. Jundi-ty receipts, 9,000 bags. Pernambuco, 60,750 bags, including 22,000 bags exchanges. Prices:
